

Internal Quality Assurance Cell -2025-26

Purpose

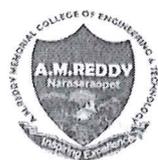

The Internal Quality Assurance Cell (IQAC) is constituted as a nodal body to promote and sustain quality enhancement in higher education institutions. Its primary purpose is to establish a systematic approach for continuous improvement of all institutional processes and to foster a culture of quality across The IQAC ensures that best practices are institutionalized and that stakeholders (students, faculty, staff, and external bodies) are engaged in the quality assurance process

Functions

- **Quality Benchmarking:** Develop and apply quality benchmarks and parameters for academic and administrative activities across the institution
- **Learner-Centric Environment:** Facilitate a learner-centric and participatory teaching–learning process, ensuring faculty adopt required knowledge and technology.
- **Stakeholder Feedback:** Collect and analyze feedback from students, parents, and other stakeholders on all institutional processes to identify areas for improvement
- **Awareness & Best Practices:** Organize inter- and intra-institutional workshops, seminars, and quality circles to disseminate information on quality parameters and promote best practices
- **Documentation & Reporting:** Maintain documentation of all quality enhancement activities; coordinate and prepare the Annual Quality Assurance Report (AQAR) per NAAC guidelines
- **Nodal Coordination:** Act as the nodal agency for coordinating quality-related activities, including integration of good practices and maintenance of an institutional database for quality management

Objectives

- **Continuous Improvement:** To develop a system for conscious, consistent, and catalytic improvement of the academic and administrative performance of the institution.
- **Quality Culture:** To promote measures for institutional functioning that enhance quality through the internalization of quality culture and institutionalization of best practices.
