Query: Dr. B. In response to the query regarding the compensation of two extra weeks with JNTUK's academic calendar, our principal has proposed an adjustment that ensures minimal disruption to the overall schedule while maintaining academic rigor.

The plan involves reducing the summer vacation duration from **three weeks to one week** specifically for the new academic year 2-1 semester. This adjustment provides the necessary two weeks to balance the academic calendar effectively, ensuring that students receive the required instructional time within the given constraints.

Resolution: Ratified (Annexure-4)
