**CIRCULAR**

To,  
The principal,  
AMRN,  
Narasaraopet,

Respected Sir,

Sub: Approval to conduct seminar on National Education Policy (NEP) 2020 organized by IQAC at AMRN –Req-Reg.

Following the recommendations of our esteemed Secretary & Correspondent Smt. Atluri Santhi Srinivasa Reddy garu, we propose to organize a seminar for all faculty members of our institute to improve their Quality initiatives.

To conduct this seminar, our institute needs to follow the expenditure norms specified by them. Therefore, please support us and grant approval for the expenditure to hold this seminar from 14-03-2022 to 15-03-2022.

Thanking You Sir

Yours faithfully

Internal Quality Assurance Cell (IQAC)

## Report on

### A Two Day Seminar on National Education Policy (NEP) 2020

A Two day seminar program was organized by the IQAC at A.M.REDDY MEMORIAL COLLEGE OF ENGINEERING AND TECHNOLOGY, Narasaraopet on 14-03-2022 to 15-03-2022

The National Education Policy (NEP) 2020, unveiled on July 30, 2020, resulted from the efforts of the Ministry of Human Resource Development (MHRD), which had established a committee in 2017 to draft the National Education Policy. This committee, known as the Drafting Committee, presented the initial NEP draft for public scrutiny in May 2019. The NEP is set to supersede the National Policy on Education from 1956. It advocates for a restructured school education system to better cater to the diverse needs of students across different developmental stages.

The proposed restructuring involves transitioning from the existing 10+2 structure to a 5-3-3-4 design. This design encompasses five years of the foundational stage (ages 3 to 8), followed by three years of preparatory stage (ages 8 to 11 or classes one to three), then three years of the middle stage (ages 11 to 14 or classes four to eight), and finally, four years of the secondary stage (ages 14 to 18 or classes nine to twelve). This shift aims to align the education system more closely with the developmental needs of students at each phase, promoting a holistic and effective learning experience.

**Program Team:** P.Surya Ganesh (Assoc.Prof ECE), Sk.Meeravali (Asst.Prof MECH),  
Sk.Subhani (Asst.prof CIVIL)

**Resource Person:** Dr.J.Ganesh Prasad Reddy, Sree Vahini Institute of Science and  
Technology, Tiruvuru, AP

**Chief Patron:** Dr.Ch.Mallikarjuna

**Coordinator:** K.Sreekar Chand

**Number of Participants:** 38

## About the program:

**Online teaching platforms and tools:** Existing e-learning platforms like SWAYAM and DIKSHA will be expanded to offer teachers a well-organized, user-friendly suite of assistive tools to monitor learner progress. Essential tools, including two-way video and two-way audio interfaces for conducting online classes, are crucial, as evidenced by the ongoing pandemic.

**Virtual Labs:** Utilizing established e-learning platforms like DIKSHA, SWAYAM, and SWAYAMPABHA, efforts will be made to establish virtual labs, ensuring that every student can enjoy equitable access to high-quality practical and hands-on experiment-based learning. The feasibility of offering sufficient access to students and teachers under the Socio-Economically Disadvantaged Groups (SEDG) through suitable digital devices, like tablets with pre-loaded content, will be explored and implemented.

**Teacher Training and Incentives:** Educators will participate in intensive training focused on learner-centric pedagogy and acquiring the skills to become proficient online content creators using various online teaching platforms and tools. The training will emphasize the crucial role of teachers in facilitating active student engagement with the content and fostering interaction among students themselves.

**Online Assessment and Examinations:** Designated entities, such as the envisioned National Assessment Centre or PARAKH, School Boards, NTA, and other identified bodies, will be responsible for formulating and executing assessment frameworks. These frameworks will cover the design of competencies, portfolios, rubrics, standardized assessments, and assessment analytics. Research initiatives will explore innovative approaches to assessment using educational technologies, with a specific emphasis on evaluating 21st-century skills.

The New Education Policy strives to foster an inclusive, participatory, and holistic approach, drawing insights from field experiences, empirical research, stakeholder feedback, and lessons learned from best practices. It represents a progressive shift towards a more scientific approach to education. The proposed structure is designed to accommodate the varying stages of a child's cognitive development, along with addressing social and physical awareness. If faithfully implemented, this new framework has the potential to position India among the leading countries globally. The National Education Policy (NEP) 2020 heralds a significant revolution, replacing a 34-year-old policy and envisioning much-needed modifications in the Indian Education System. The policy maintains a delicate balance between tradition and the interdisciplinary approach, aligning with the requirements of the 21st century. NEP holds the promise of revitalizing the skills of the country's youth, equipped with the necessary tools to compete on the global stage. Undoubtedly, the New Education Policy is a forward-thinking and ambitious initiative that India has been anticipating.

Education serves as the cornerstone for unlocking complete human potential, fostering an equitable and just society, and driving national development. The key to India's sustained progress and global leadership across economic growth, social justice, equality, scientific advancement, national integration, and cultural preservation lies in ensuring universal access to quality education. A commitment to universal high-quality education is imperative to harnessing and optimizing the abundant talents and resources within our country, ultimately benefiting the individual, society, nation, and the global community. India is poised to have the world's largest population of young people in the next decade, underscoring the critical importance of providing them with high-quality educational opportunities. The ability to deliver such opportunities will shape the future trajectory of our nation.

The worldwide education development agenda, encapsulated in Goal 4 (SDG4) of the 2030 Agenda for Sustainable Development, embraced by India in 2015, strives to "ensure inclusive and equitable quality education and promote lifelong learning opportunities for all by 2030." Achieving this ambitious goal necessitates a comprehensive reconfiguration of the entire education system to facilitate and nurture learning. This realignment is essential for realizing all the pivotal targets and objectives (SDGs) outlined in the 2030 Agenda for Sustainable Development.

The National Education Policy 2020 represents the inaugural education policy of the 21st century and endeavors to tackle the numerous evolving developmental needs of our nation. This policy advocates for the comprehensive revision and restructuring of all facets of the education framework, encompassing its regulation and governance. The objective is to establish a novel system that aligns with the ambitious objectives of 21st-century education, including SDG4, while upholding India's rich traditions and value systems. This policy places special emphasis on unleashing the creative potential inherent in each individual. It operates on the principle that education should not only nurture cognitive capacities, such as foundational skills in literacy and numeracy, and higher-order cognitive abilities like critical thinking and problem-solving, but also foster social, ethical, and emotional capacities and dispositions.

This should be integrated, considering both the domestic and international requirements of the country, while acknowledging and honoring its diverse cultural heritage. Fostering an
