## Report on Rise of The Women is Equal To Rise of The Nation

The ICC Committee's recent event, "Rise of the Women is Equal to Rise of the Nation" held on 08/07/2019 at Seminar Hall, marked a significant stride in fostering gender equality within our college community. Commencing with an inspiring welcome address, the event delved into a dynamic panel discussion where distinguished speakers explored the diverse contributions of women in academia, industry, and society. These discussions underscored the collective responsibility we share in nurturing an inclusive and supportive campus environment.

Highlighting the human side of empowerment, the event featured inspirational success stories from accomplished women. These narratives served as powerful examples, illustrating how the rise of women is intricately linked with the progress of our nation. The interactive sessions that followed were characterized by active student engagement, showcasing a genuine commitment to fostering dialogue and understanding on gender-related issues.

A pivotal aspect of the event was the launch of an impactful awareness campaign. Utilizing posters, digital media, and informational materials, the campaign aimed to propagate the significance of gender sensitivity and to instill a culture of respect and equality within the college community. This comprehensive approach aligns with our commitment to sustaining awareness on gender equality beyond the event, promoting continuous dialogue, and establishing a lasting impact on our campus culture.

In conclusion, the "Rise of the Women is Equal to Rise of the Nation" event not only served as a platform for insightful discussions but also catalyzed a tangible shift in the collective mindset of our college community. The engaged participation of students, coupled with the commitment of the ICC Committee and the invaluable insights shared by the speakers, created an environment conducive to fostering long-lasting change. Moving forward, the committee aims to build on this momentum, considering the event as a catalyst for sustained efforts in organizing regular initiatives, workshops, and forums addressing gender-related issues. By doing so, we aspire to shape a campus culture that not only recognizes the intrinsic value of women's contributions but actively works towards their

## Report on Awareness Program on Educational Rights

### An awareness Program on Educational Rights

**By: T. Deepthi**

**Date: 20-09-2019**

**Venue: A. M. Reddy Memorial College of Engineering & Technology**

We have conducted an awareness program on 'Educational rights' on 20-09-2019. The resource person for this program was T. Deepthi.

Deepthi mentioned that education is about all activities by which a human group transmits to its descendants a body of knowledge and skills and a moral code which enable the group to subsist the rights to education are separated into three levels like Primary education, Secondary education and university level education.

The fulfillment of the right to education can be assessed using the frameworks like proper infrastructure and facilities in place with adequate books and materials for students Buildings should meet both safety and sanitation standards, such as having clean drinking water, all people should have equal access to school services, regardless of gender, race, religion, ethnicity or socio-economic status, the quality of education provided should be free of discrimination, relevant and culturally appropriate for all students, educational

## Report on International Women's Day Celebration

On the occasion of Women's day on March 8<sup>th</sup> 2020 (Sunday), we have conducted an enlightenment interactive session on 'International Women's Day' on March 7<sup>th</sup> 2020. The resource person for this program was Smt. K. Revathi Garu.

Revathi Garu AP Model School Principal told the importance of international Women's Day (IWD) as it is a global day celebrating the social, economic, cultural, and political achievements of women.

The day also marks a call to action for accelerating gender parity. Significant activity is witnessed worldwide as groups come together to celebrate women's achievements or rally for women's equality which is a call for positive change advancing women.

- IWD is not country, group, nor organization specific. No one government, NGO, charity, corporation, academic institution, women's network, or media hub is solely responsible for IWD.
- The day belongs to all groups collectively, everywhere. Support for IWD should never be a battle between groups or organizations that declaring what action is the best or right.
- Feminism's eclectic and inclusive nature means that all efforts advancing women's equality are welcome and valid and should be respected. This is what it means to be truly 'inclusive'.

So, in the seminar students actively participated in the interactive session and gave a lot of suggestions and thoughts on how to encourage the women empowerment in both public and political life.

## PROGRAM REPORT

Name of the Programme : A One Day Training on awareness program on "Gender Equality for students"

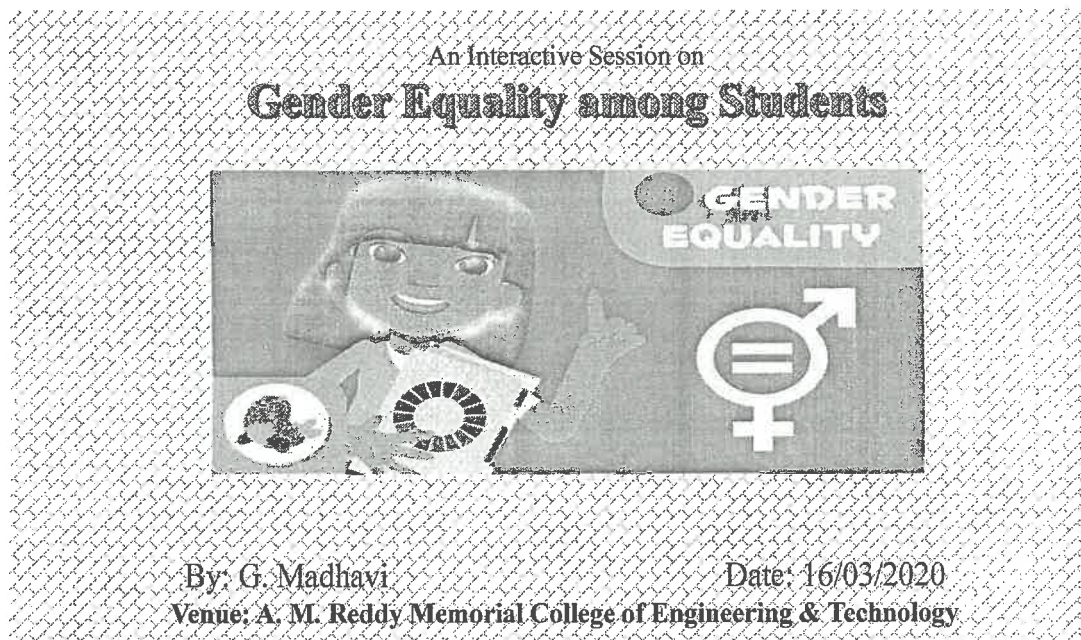

Date of Activity : March 16<sup>th</sup> 2020.

Resource Person Details :

Name : G. Madhavi  
Designation : Assistant Professor  
Mail .Id : [madhavisuji108@gmail.com](mailto:madhavisuji108@gmail.com)  
Contact Number : 7702301059

Organized by : A. M. Reddy Memorial College of Engineering & Technology

Venue : Room No: 314

Madhavi mentioned that Gender equality is not only a fundamental human right but also a necessary foundation for a peaceful, prosperous, and sustainable world, in most societies, unequal treatment in childhood limits boy's and girl's potential and deepens power imbalances between men and women. Parenting is a preventive tool, not a way to buffer the adverse effects of gender harmful norms and inequalities. Parenting is about loving children and accepting them for who they are, challenging the social norms and societal expectations that could harm them and limit their development

Madhavi explained how we can achieve gender equality by increasing awareness about gender-transformative parenting methods, improving parent-child communication and dialogue, and improving parental ability to engage with adolescents on boundaries, health and safety risks, gender identity, sexuality, among others. Main topics covered are:

- Preparing frontline workers to address gender dynamics in families. For example, promoting non-violent discipline, recognizing and reporting gender-based violence, and supporting caregivers through wellbeing and stress-reduction interventions. Challenging gendered norms relating to childcare and encouraging fathers'/male engagement.
- Promoting gender equity and equality and empowering all women and girls to exercise their rights which are fundamental to realizing human rights for all and a necessary foundation for a peaceful, prosperous, and sustainable world.

### GENDER EQUALITY:

Gender Equality refers to the equal rights, responsibilities, and opportunities for all individuals, regardless of their gender. This includes equal access to education, healthcare, and economic opportunities, as well as the ability to live free from gender-based violence and discrimination.

There is an African Proverb that says -"If you educate a man, you educate an individual. But if you educate a woman, you educate a nation. When girls are educated, their countries become stronger and more prosperous. The highest result of education is tolerance."

In education, gender equality means girls and boys, men and women, have the same opportunities to receive education, with the same resources, and with the same expectations of success. Gender equality in education also means that the school system is inclusive, responsive, and empowering for all students, regardless of their gender.

Girls' education, alongside improved sexual and reproductive health and rights, has often been cited as the world's best investment. However, gender equality in education is not only important for empowering girls and women, but also has a positive impact on macroeconomic and financial stability. Gender equality in education can stimulate economic growth by increasing the number of educated and skilled workers in the labor force.

In turn, this can lead to higher productivity and innovation. Additionally, having more women in leadership positions in the private and public sector can boost performance by increasing diversity and promoting better decision-making.
