Green Practices Initiatives by College towards Sustainable Environment

I) Public Transport:

As the college is located 8 km from City College, having 12 buses from the various corners of the city encourages students and staff to use transport facilities as it may help save the environment, leading to a safe and secure life, which in turn will benefit all.

II) Tree Plantation:

Tree-planting is the process of transplanting tree seedlings, generally for forestry, land reclamation, or landscaping purposes. It differs from the transplantation of larger trees in arboriculture and from the lower-cost but slower and less reliable distribution of tree seeds.

In silviculture, the activity is known as reforestation or afforestation, depending on whether the area being planted has or has not recently been forested. It involves planting seedlings over an area of land where the forest has been harvested or damaged by fire, disease, or human activity.

Tree planting is carried out in many different parts of the world, and strategies may differ widely across nations and regions and among individual reforestation companies. Tree planting is grounded in forest science and, if performed properly, can result in the successful regeneration of a deforested area. Reforestation is the commercial logging industry's answer to the large-scale destruction of old-growth forests, but a planted forest rarely replicates the biodiversity and complexity of a natural forest.

Because trees remove carbon dioxide from the air as they grow, tree planting can be used as an agro-engineering technique to remove CO₂ from the atmosphere. It is also motivated by improved biodiversity and reclamation of natural water systems, as well as improved economy and social welfare due to the increased number of jobs in farming and forestry.

The college has planted trees in the campus area to make it more environment-friendly. The college conducts many tree plantation programmes to encourage students and staff to not only plant trees but also nourish them to maintain environmental balance.

III) Plastic Free and Paper Free Campus:

The concept of a plastic- and paper-free campus can be successfully implemented at the college. Management has taken the initiative to make the policy for the same. It will help to reduce the use of plastic and paper, which will be a good contribution towards a sustainable environment.

Report on NSS Activity "Wealth Out of Waste"

Date of Conduction: 10th September 2022 .

Name of the Event: "Wealth Out of Waste"

Participants of the Event: AMRMCET NSS Students and other Student Volunteers

Faculty Coordinators of the Event: Mrs. V. Sai Spandana, Dept of CSE

Student Coordinator of the Event: Mr. E. Vamsi Goud

Place of Conduction of the Event: college campus ground

Objective of the Program:

- To develop the ability to think and organize to create something useful from waste
- To create awareness in among students to use the waste products in best possible manner

Efficient handling of waste is an important factor in the developmental progress of any Nation and the health of its people and effective management of waste is now a National priority. So to encourage students to showcase their talent in innovative thinking and creating wealth from waste the NSS AMRMCET organized a program "Wealth out of Waste" on 10th September 2022.

Students from all branches of engineering show cased items and things which were made out of waste, like with the help of CDs face of Lord Ganesh was made, Paper Bowls, Bangles out of Plastic bottles, Quilling, Paper Stands, Photo Frame from Paper etc.

It was an innovative awareness session and many students participated to make the event a grand success.

Report on NSS Activity "Say no to plastic"

Date of Conduction: 08th April 2023

Name of the Event: "Say no to plastic"

Participants of the Event: AMRMCET NSS Students and other staff and Volunteers

Faculty Coordinators of the Event: Mr. B. Krishnam Raju, Dept. of ME

Student Coordinator of the Event: Mr. B. Sunil

Place of Conduction of the Event: AMRMCET Campus

Objective of the Program: To make AMRMCET plastic free zone.

Report on "Say no to plastic"

On 08th April 2023 NSS of AMRMCET and HITA organized a program "Say No to Plastic". HITA – Narasaraopet is a nonprofit social event organizers have come with the idea of using Paper Bags instead of polythene covers at College Canteen and make AMRMCET a plastic free zone. The paper bags have been made by Aparna, Sushma Priya, Pavani, Lakshmi and Alekhya, III and IV B. Tech students of Agriculture Engineering and ECE on 08th April 2023, the college secretary madam Smt. A. Santhi Srinivasa Reddy donated these bags to Yogesh, College Canteen In-charge and for this Dr. Kumar, Principal, Sri. A. Venkata Reddy Sir, Sr. A.O and Dr. D. Anand Babu Sir, HOD – Agriculture Engineering Department, of AMRMCET were present to advocate the good initiative and show the managements support for the noble cause.

The program was further preceded by Mr. K. Krishna Reddy, Diploma Principal and NSS Coordinator who explained the basic need of cleanliness in our society and to avoid use of plastic usage in our daily life. The center of attraction was the display of paper bags all over the canteen, with quotes on

“Ban Plastic in the campus”.

The overall program was very fruitful. The enthusiasm of the NSS volunteers towards the campaign made it more educative.

Report on NSS Activity "Save Electricity and Water"

Date of Conduction: 14 – 12 – 2022

Name of the Event: "Save Electricity and Water" awareness program

Participants of the Event: AMRMCET NSS Students and staff members

Faculty Coordinator of the Event: Mr. Sk. Karimulla, Dept. of S&H

Student Coordinator of the Event: Ms. P. Uma Devi

Place of Conduction of the Event: AMRMCET college seminar hall

Objective of the Program: To raise awareness in individuals to save electricity and water.

On the occasion of World Energy Conservation Day celebrations, AMRMCET NSS has organized "Save Electricity and Water Awareness Program" in the college campus on December 14th 2022. It has been opted on Saving our electricity and water as per the theme of NSS.

The NSS Volunteers pasted Posters and distributed Pamphlets in the college so as to inculcate the habit of switching off the fans and lights when not in use in class rooms, laboratories, rest rooms, reading room in the library, staff rooms etc and using less water as much as possible and closing the running taps in restrooms and at the drinking water tank placed in the corridors.

**“Electricity and Water are important in life;
without them we cannot live”.**

II) Ban on use of Plastic:

On the occasion of World Environment Day a programme was organised in association with Department of Agricultural Engineering and department of Civil Engineering regarding abandoning the use of plastic. A pledge was taken by the members of the college community regarding abandoning use of Plastic in the college campus.

In this regard volunteers of NSS unit also took part in this programme. College took initiatives to make the campus plastic free zone. Rally with students, teachers and staff was held for removal of plastic in Narasaraopet town.

Rally with students, faculty and staff was held for ban of plastic in Narasaraopet town.

III) Landscaping with trees and plants:

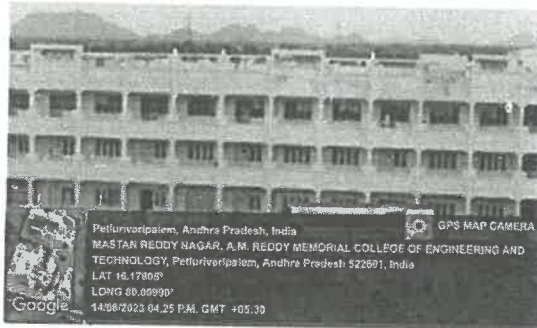

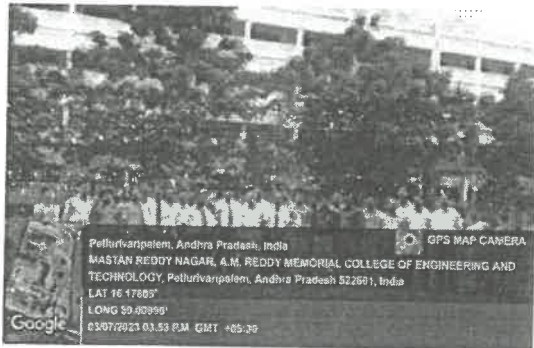

Every year during rainy season, college takes the initiative of plantation inside the college campus. The department of forestry of Narasaraopet has nursery and promote different NGO and institutes for plantation. Our college takes the advantage of free plant from nursery and plantation takes place inside the campus. The college has developed a beautiful green land scape in and around the campus. In a location inside the campus some medicinal plants are also planted over last five years.

7.1.3 POLICY DOCUMENT ON ENVIRONMENT AND ENERGY USAGE

Principal

A.M. REDDY MEMORIAL COLLEGE OF
ENGINEERING & TECHNOLOGY
PETLURIVARI PALEM
Narasaraopet (Mdl), Guntur (Dist)

AM Reddy Memorial College of Engineering and Technology, Narasaraopet is committed to manage energy in such a systematic way so as to minimize its impact on the environment. The environment and energy usage policy of the college implies to explore the renewable energy resources to reduce the burden of the government and to find out substitute natural resources as solutions to the energy crisis.

This environment and energy policy is binding for all the components of the institution and applies to all its participants and to the various activities undertaken by the institution. It will help us to implement efficiency and environmental awareness to conservation of natural resources and to limit its usage.

Policies:

- To assess our energy usage and measure its impact on the environment.
- To install solar panels for the generation of alternate energy. Use of renewable energy resources like solar cell, solar water heater and solar lights.
- Turn off your monitor when you leave your table. Whenever possible, shut down rather than logging off.
- Use LED or compact fluorescent bulbs as much as possible; prefer maximum use of natural light as the class rooms are well ventilated.
- Switch off lights, fans in conference rooms, classrooms and lecture halls when they are not in use. Avoid the use of decorative / flood / high wattage lighting.
- Use the fans only when they are needed.
- In hostels install the water heaters with non-conventional energy resources.
- Avoid usage of motor cycles as they cause local air pollution emission, instead use bicycles and use of pedestrian – friendly roads.
- To undertaken tree plantation drive.
- To encourage use of advanced technology to minimize energy consumption, atmospheric emission and noise.
- To monitor and respond to emerging environmental and energy issues. To strengthen our employees' and students' environmental knowledge and skills in order to improve our own environmental performance.
- To provide information and training on energy saving measures.
- To offer opportunities for employees and students to engage in initiatives which contribute to environmental protection.
- Minimum use of AC.
- Screen time saver for minimizing energy consumption.
- Purchasing star rated appliances for energy conservation.

Principal

WATER MANAGEMENT AND CONSERVATION:

AM Reddy Memorial College of Engineering and Technology, Narasaraopet shall adopt a multipronged approach for the use and conservation of water resources on the Campus.

- To save every single drop of water, the college has a rain water harvesting tank.
- The remaining of the rooftop water shall be directed to bore-wells in order to replenish them.
- Being concerned towards the health and safety of our staff and students, we shall provide purified (RO aqua-guard) drinking water facilities on the Campus.
- Regular water testing shall be done to check the quality parameters of water.
- Awareness programs shall be organized on water conservation.
- Regular checks shall be done for leak detection and repair of leaks.
- Periodic cleaning of water storage bodies viz. cement tanks, sintex tanks, etc.
- Land scalping with drought tolerant plants.

PLASTIC-FREE CAMPUS:

As an Institution, which is sensitive and caring towards safe guarding nature and in conformity with the Indian Government's notification on Ban on single-use plastic, the administration of AM Reddy Memorial College of Engineering and Technology, Narasaraopet has banned the use of single-use plastic in the college premises. The College shall be dedicated to frame a plastic free campus and create environmental consciousness amongst the students and staff members regarding the same by display boards and other awareness programmes.

- The ban shall be applicable on plastic items like- plastic carry bags, cups, plates, forks, spoons, bottles, straws, etc., which are thrown after single use.
- It will be mandatory for all the students and employees of the institution to avoid the use of non-biodegradable plastic items in the premises.
- All will be encouraged to use environment- friendly substitutes like cloth bags, paper bag, steel lunch boxes, etc.
- The canteen authority shall also abide by the no plastic policy.

REGULATIONS ON ENTRY AND PARKING OF AUTOMOBILES:

Automobiles are one of the major contributors to air pollution; as per the order from the management of AM Reddy Memorial College of Engineering and Technology, Narasaraopet Student's vehicles shall be allowed only up to the designated parking area, entry beyond that point is strictly prohibited.

Principal

AM REDDY MEMORIAL COLLEGE OF
ENGINEERING & TECHNOLOGY
PETLURIVARI PALEM
Narasaraopet (Mdl), Guntur(Dr

Students shall park their Two-wheelers near security office parking area. No student shall be permitted to enter the campus with four wheelers. All motor rules which are enforced by the road transport authority shall be applicable inside campus.

- The College shall provide adequate number of parking space for faculty, staff and students. All are instructed to park their vehicles at the appropriate parking space.
- It is mandatory for all faculty, staff and students to wear their identity cards for identification.
- Wearing helmet is compulsory for those coming on two wheelers.
- Pollution check is mandatory for all the vehicles.
- Use of mobiles while driving is prohibited.
- Limit for shared pooling on two-wheeler is maximum two.
- Staff and students are encouraged to use bicycle, electric powered vehicles and shared pooling.
- Entry and Exist of each vehicles are registered at the entrance / parking area inside the Campus.

RESTRICTED ENTRY OF AUTOMOBILES:

- Entry of automobiles is restricted by the security guards after the specific point (Academic block) inside the campus
- The college premises provided Separate parking's for both two wheeler and four wheelers.

PEDESTRIAN – FRIENDLY PATHWAYS:

- The pedestrian pathway in the campus gives a pleasant feel to the students and faculty as it is situated among the green trees on either sides of the road.
- Institution is fully covered with several trees and makes the campus green and pollution free.
- It is mandate to use pedestrian pathways inside the college premises.

Report on Environmental promotional and sustainability activities conducted beyond the Campus:

A. M. Reddy Memorial College of Engineering and Technology conducts every year various environmental promotional activities both inside and outside the campus. Here are some of the persuasive activities beyond the campus.

1. Distribution of cloth bags:

Our college NSS unit conducted a shop to shop and person to person awareness program in Petlurivaripalem village and kotappakonda temple by distributing the biodegradable bags and also conducted campaign on the ban on the use of plastic. In these campaigning students of our college, conveyed the message not to use plastic bags to the merchants and they distributed cloth bags by educating them the pollution resulting from plastic bags.

3. World Nature Conservation Day:

World Nature Conservation Day was observed on 28th July 2021. The day marks the importance of preserving our natural resources and environment. Various activities were initiated by our NSS team to acknowledge that a healthy environment is the foundation for a stable and healthy human society. The main objective of the event was to increase awareness about the best practice to conserve our natural resources and encourage sustainability. Encouraging students to make own compost, to plant ecofriendly plants, to maintain the trees and its surrounding areas with clean, utilization of sprinkles for watering the plants and home wastage management. These are some activities they can engage themselves to conserve nature.
