Respected Sir,
 Sub: Request approval to conduct workshop on "A RESEARCH EXPEDITION INTO GEOTECHNICAL ENGINEERING, ADVANCED SOIL ANALYSIS -Reg.

The department of Civil Engineering is planning to conduct a workshop on "A RESEARCH EXPEDITION INTO GEOTECHNICAL ENGINEERING, ADVANCED SOIL ANALYSIS" to II/III/IV B.tech students on 17/06/2021 & 18/06/2021 that benefits the students/staff for the Enhancing their knowledge. The resource person for the workshop is T.PAVANI Asst.Prof in NIT. we request you to accord approval and grant the required amount for the smooth conduction of the workshop.

Thanking you sir

Yours sincerely,

Objectives

- Utilize advancements in geotechnical engineering to enhance the accuracy and depth of soil analysis.
- Objectives may include deploying advanced geophysical methods, such as ground-penetrating radar or seismic techniques.
- provide a comprehensive understanding of subsurface conditions.

Resource persons

Mrs. T. PAVANI

Eligibility

UG STUDENTS

OUTCOME

- Geotechnical engineering has witnessed improvements in soil testing methods, with the advent of technologies such as cone penetration testing (CPT) and geophysical methods.
- These provide more accurate data on soil properties, allowing for a better understanding of subsurface conditions.
- The integration of geospatial technology, including Geographic Information System (GIS) mapping, enables engineers to overlay soil data with geographical information.

CHAIRMAN

Aturi Srinivasa Reddy Chairman At A.M.Reddy Group, Learning is based on doing things and not merely knowing things, otherwise which the whole process will remain Superficial. Any engineering institution worth its name looks to optimize the productivity of global leaders.

Our institution has set specific objectives and planned activities for achieving excellence in all spheres of technical education. Great talent without will-power and hard work, is like hidden untapped precious natural resources. Our institution aims at bringing out these natural talents in students and leverages them for individual growth and excels in their careers too

SECRETARY

Engineering education plays a vital and most significant role in nation's building. Engineers create new inventions using best engineering technologies to make Human life more comfortable, secure, and productive.

In these modern times, nations which have rich engineering and experienced management domains are flourishing economically and are providing better lives to their people. We have excellent potential to grow in diversified areas and excel in Engineering and Management fields. We need numerous engineers and managers to develop plenty of successful inventions.

VISION:

To be the best at serving society by creating engineering knowledge and Educating engineers for dynamic and global careers.

MISSION:

The college of Engineering serves the state, the nation, and the world by Graduating talented. Broadly educated engineers. Conducting high quality research, developing breakthrough technologies, and disseminating and preserving technical knowledge.

QUALITY POLICY:

A.M. Reddy Engineering College, strongly believe that Quality is the essence of life. Hence, AMRN will constantly strive to improve the quality of education and training imparted to its students by establishing state-of-the-art laboratories and modernizing them continually, upgrading the knowledge and skills of its staff periodically and developing strong linkages with industry

PROGRAMME REPORT

PROGRAMME NAME	A TWO DAYS WORKSHOP ON A RESEARCH EXPEDITION INTO GEOTECHNICAL ENGINEERING, ADVANCED SOIL ANALYSIS		
RESOURCE PERSON	T.PAVANI, NIT College, 8297880368, mpavanisivarao@gmail.com		
DATE OF ACTIVITY	17/06/2021 & 18/06/2021		
ORGANIZED BY	A.M. Reddy Memorial College Of Engineering And Technology		
VENUE	A.M. Reddy Memorial College Of Engineering And Technology		
NUMBER OF PARTICIPANTS	36		

OBJECTIVE:

1. Utilize advancements in geotechnical engineering to enhance the accuracy and depth of soil analysis.
2. Objectives may include deploying advanced geophysical methods, such as ground-penetrating radar or seismic techniques.
3. provide a comprehensive understanding of subsurface conditions.
4. Develop and implement advanced predictive models using artificial intelligence.

OUTCOME:

1. Geotechnical engineering has witnessed improvements in soil testing methods, with the advent of technologies such as cone penetration testing (CPT) and geophysical methods. These provide more accurate data on soil properties, allowing for a better understanding of subsurface conditions.
3. The integration of geospatial technology, including Geographic Information System (GIS) mapping, enables engineers to overlay soil data with geographical information.
4. This integration enhances the analysis of site-specific conditions, facilitating more informed decisions in foundation design.

Objectives:

Increase participants' understanding of artificial intelligence, particularly in the realm of natural language processing (NLP) and conversational AI

Raise awareness about the capabilities and potential applications of ChatGPT as a state-of-the-art language model

Provide an in-depth exploration of the architecture, workings, and underlying principles of ChatGPT, including its transformer-based architecture and training methodologies

Outcomes:

Overview of artificial intelligence, its applications, and importance in modern society

Introduction to ChatGPT, explaining its architecture, capabilities, and use cases

Explanation of chatbots, conversational agents, and their role in AI

Course content:

- Introduction to AI and ChatGPT
 - Fundamentals of Chatbots and Conversational AI
 - Understanding ChatGPT
 - Applications of ChatGPT and AI
 - Ethical and Societal Implications
 - Future of AI and ChatGPT
- Resource persons:

Mr. A SRINIVASA REDDY

EXA SYSTEMS INC CEO

Eligibility:

Faculty and students from AICTE approved Engineering colleges and Polytechnics & also participants from industries and R&D organizations.

Accommodation:

Accommodation will be provided for external participants in the college premises at students hostel on demand.

About the college:

A.M. Reddy Memorial College of Engineering and Technology (AMREN), popularly known as AM Reddy College was established in the year 2008, by A.M. REDDY EDUCATIONAL SOCIETY in Petturivaripalem, Narasaraopet, Palnada (Dt.) by Sri. A. SRINIVASA REDDY, the Chairman. AM Reddy College is affiliated to Jawaharlal Nehru Technological University Kakinada and approved by AICTE. AM Reddy College is located little far from the hustle and bustle of the city life in a scenic and serene environment spread over an extensive 10,9425 acres amidst the lush fields just 3 kms away from Sub-Urban of Narasaraopet. The institute has set a benchmark in providing its students the very best in terms of infrastructure and academic services.

About the department

The Department of Computer Science and Engineering (CSE) was established in 2008 Ever since its inception, the department has been a pioneering academic centre for higher education, research, and innovation in key areas of computer science. The constantly changing dynamics of this Engineering stream poses challenges to students to stay updated with the latest developments. Our qualified faculty and advanced labs ensure that our students are well prepared to take on these challenges. The department attracts talented students from all over India. All graduates of CSE find excellent placements in research-oriented industries and top ranking MNC's.

The department currently offers 4 year Under Graduate Programs in computer science and Engineering, and Cyber Security branches.

AM Reddy College is located little far from the hustle and bustle of the city life in a scenic and serene environment spread over an extensive 10,9425 acres amidst the lush fields just 3 kms away from Sub-Urban of Narasaraopet. The institute has set a benchmark in providing its students the very best in terms of infrastructure and academic services. The college meticulously implements quality policy, absolute discipline, well ventilated classrooms, multimodal teaching methodology, additional trainings for campus placements, caring teachers, committed staff, proactive managing committee, vigilant security, a dedicated canteen, separate hostel facilities for boys and girls, a fleet of buses, a mineral water plant, spacious auditorium, and outdoor grounds, and all supported with uninterrupted power backup.

About the department

The Department of Computer Science and Engineering (ECE) was established in 2008. Ever since its inception, the department has been a pioneering academic centre for higher education, research, and innovation in key areas of Electronics. The constantly changing dynamics of this Engineering stream poses challenges to students to stay updated with the latest developments. Our qualified faculty and advanced labs ensure that our students are well prepared to take on these challenges. The department attracts talented students from all over India. All graduates of ECE find excellent placements in research-oriented industries and top ranking MNC's.

The department currently offers 4 year Under Graduate Programs in computer science and Engineering, and Cyber Security branches.

ENGINEERING & TECHNOLOGY
PETTURIVARIIPALEM

Narasaraopet (Dt.), Guntur Dist.

Introduction:

OBJECTIVES:

- Biometric authentication
- Biometric identification
- Physiological measurements
- Behavioral measurements

OUTCOMES:

- Learn about Biometric Devices and its applications
- Build your Biometric Authentication using Finger Print Scanner
- Work with Arduino, Biometric Scanners, LCD Display, etc.
- Understand and Implement Arduino Programming
- Test your project with your own finger print

Course content:

- What Is Biometric Authentication?
- What Is Multi-Factor Authentication?
- Biometric Authentication vs. Verification.
- Benefits of Biometric Authentication for Enterprise Security
- Must-Have Features for Biometric Authentication Tools.

Resource person:

K. BHASKARA RAO, MTech
Assistant Professor,
Department of ECE,
CR ENGINEERING COLLEGE

Eligibility:

Faculty and students from AICTE approved Engineering colleges and Polytechnics & also participants from industries and R&D organizations.

Accommodation:

Accommodation will be provided for external participants in the college premises at student's hostel on demand.

Registration fee: Free

Scheduled date:

Last date for receipt of application: 06-08-2021

Intimation of selection by email : 07-08-2021

Confirmation by participants : 09-08-2021

Objective of the workshop:

- Using innovative technologies and methods to improve and enhance competitiveness within the manufacturing sector.
- Provide guidance to students for their choices in research and professional career outlook and to encourage students to take up research.
- Impart knowledge to students in the latest technological topics on Production and Industrial Engineering and to provide them with opportunities in taking up advanced topics in the field of study.

Eligibility:

Faculty and students from AICTE approved Engineering colleges

Scheduled date:

Last date for receipt of application: 02/09/2021

ABOUT US:

AM Reddy College is located little far from the hustle and bustle of the city life in a scenic and serene environment spread over an extensive 10.9425 acres amidst the lush fields just 3 kms. away from Sub-Urban of Narasaraopet. The institute has set a benchmark in providing its students the very best in terms of infrastructure and academic services.

The college meticulously implements quality policy, absolute discipline, well-ventilated classrooms, multimodal teaching methodology, additional trainings for campus placements, caring teachers, committed staff, proactive managing committee, vigilant security, a dedicated canteen, separate hostel facilities for boys and girls, a fleet of buses, a mineral water plant, spacious auditorium, and outdoor grounds, and all supported with uninterrupted power backup.

Chairman

A.M.Reddy Group, Learning is based on doing things and not merely knowing things, otherwise which the whole process will remain superficial. Any engineering institution worth its name looks to optimize the productivity of global leaders.

Our institution has set specific objectives and planned activities for achieving excellence in all spheres of technical education. Great talent without will-power and hard work, is like hidden untapped precious natural resources. Our institution aims at bringing out these natural talents in students and leverages them for individual growth and excels in their careers too

Secretary

Engineering education plays a vital and most significant role in nation's building. Engineers create new inventions using best engineering technologies to make Human life more comfortable, secure, and productive. In these modern times, nations which have rich engineering and experienced management domains are flourishing economically and are providing better lives to their people. We have excellent potential to grow in diversified areas and excel in Engineering and Management fields. We need numerous engineers and managers to develop plenty of successful inventions.

PROGRAMME REPORT

PROGRAMME NAME	A TWO DAY WORKSHOP ON "RESEARCH ON ADVANCED MANUFACTURING TECHNOLOGY IN MECHANICAL ENGINEERING"
RESOURCE PERSON	Mr. B.YEDUKONDALA RAO, E-mail: yedukondalाराo@gmail.com , Cell no : 6304790224, College ; Sri malineni college of engineering.
DATE OF ACTIVITY	07-09-2021 TO 08-09-2021
ORGANIZED BY	A.M. Reddy Memorial College Of Engineering And Technology
VENUE	A.M. Reddy Memorial College Of Engineering And Technology
NO OF PARTICIPANTS	51

OBJECTIVE:

- Using innovative technologies and methods to improve and enhance competitiveness within the manufacturing sector.
- Provide guidance to students for their choices in research and professional career outlook and to encourage students to take up research.
- Impart knowledge to students in the latest technological topics on Production and Industrial Engineering and to provide them with opportunities in taking up advanced topics in the field of study.

OUTCOME:

- Acquire abilities and capabilities in the areas of advanced manufacturing methods, quality assurance and shop floor management
- Efficient production involves design, simulation, physical and computer modeling, advanced production technologies, and control techniques.
- Intelligent production involves the use of ICT in manufacturing and related logistics systems. As well as production orientated intelligent machines, cells and production lines, the philosophy involves implementing systems for the extended life and optimal use of production facilities through efficient monitoring, maintenance and repair strategies.
- Effective organization involves the efficient co-ordination and exploitation of manufacturing resources. This encompasses both physical resources and knowledge.

“A SEMINAR ON RESEARCH INFUSED APPROACH TO SEISMIC RETROFITTING IN EXISTING CONSTRUCTIONS”

A.M. REDDY MEMORIAL COLLEGE OF ENGINEERING AND TECHNOLOGY, JNTU KAKINADA.

Organized by

DEPARTMENT OF CIVIL ENGINEERING.

www.amreddyengineering.ac.in

Chief Patron : Mr. A SRINIVASA REDDY

Patron : Mrs. ASANTHI

Co-Patron : Dr.Ch.MALLIKARJUNA RAO

Convener : Dr. B. MURUGAN

Objectives

1. Strengthen existing structures to withstand seismic forces by adding structural elements or retrofitting existing ones.
2. Improve the foundation system to better absorb and dissipate seismic energy.
3. Retrofit non-structural components such as facades, partitions, and utility systems for improved seismic performance.

Resource persons

Mr. A NAGAI AH

Eligibility

UG STUDENTS

OUTCOME

1. Incorporate seismic dampers or base isolators to absorb and dissipate seismic energy.
2. Develop a retrofitting plan based on the structural assessment, incorporating engineering solutions for seismic resilience.
3. Address foundation vulnerabilities to ensure stability during seismic events.

CHAIRMAN

Aturi Srinivasa Reddy Chairman At A.M.Reddy Group, Learning is based on doing things and not merely knowing things, otherwise which the whole process will remain Superficial. Any engineering institution worth its name looks to optimize the productivity of global leaders.

Our institution has set specific objectives and planned activities for achieving excellence in all spheres of technical education. Great talent without will-power and hard work, is like hidden untapped precious natural resources. Our institution aims at bringing out these natural talents in students and leverages them for individual growth and excels in their careers too

SECRETARY

Engineering education plays a vital and most significant role in nation's building. Engineers create new inventions using best engineering technologies to make Human life more comfortable, secure, and productive.

In these modern times, nations which have rich engineering and experienced management domains are flourishing economically and are providing better lives to their people. We have excellent potential to grow in diversified areas and excel in Engineering and Management fields. We need numerous engineers and managers to develop plenty of successful inventions.

VISION:

To be the best at serving society by creating engineering knowledge and Educating engineers for dynamic and global careers.

MISSION:

The college of Engineering serves the state, the nation, and the world by Graduating talented. Broadly educated engineers. Conducting high quality research, developing breakthrough technologies, and disseminating and preserving technical knowledge.

QUALITY POLICY:

A.M. Reddy Engineering College, strongly believe that Quality is the essence of life. Hence, AMRN will constantly strive to improve the quality of education and training imparted to its students by establishing state-of-the-art laboratories and modernizing them continually, upgrading the knowledge and skills of its staff periodically and developing strong linkages with industry.

1. Incorporate seismic dampers or base isolators to absorb and dissipate seismic energy.
2. Develop a retrofitting plan based on the structural assessment, incorporating engineering solutions for seismic resilience.
3. Address foundation vulnerabilities to ensure stability during seismic events.
4. Secure and retrofit non-structural elements to prevent hazards during earthquakes.

OUTCOME:

1. Strengthen existing structures to withstand seismic forces by adding structural elements or retrofitting existing ones.
2. Improve the foundation system to better absorb and dissipate seismic energy.
3. Retrofit non-structural components such as facades, partitions, and utility systems for improved seismic performance.
4. Incorporate seismic dampers or base isolators to absorb and dissipate seismic energy.

About the college:

A.M. Reddy Memorial College of Engineering and Technology (AMRNT), popularly known as AM Reddy College was established in the year 2008, by A.M. REDDY EDUCATIONAL SOCIETY in Petturivariapalem, Narasaraopet, Palnadu (Dt.) by Sri. A. SRINIVASA REDDY, the Chairman. AM Reddy College is affiliated to Jawaharlal Nehru Technological University Kakinada and approved by AICTE. AM Reddy College is located little far from the hustle and bustle of the city life in a scenic and serene environment spread over an extensive 10,9425 acres amidst the lush fields just 3 kms away from Sub-Urban of Narasaraopet. The institute has set a benchmark in providing its students the very best in terms of infrastructure and academic services. The college meticulously implements quality policy, absolute discipline, well-ventilated classrooms, multimodal teaching methodology, additional trainings for campus placements, caring teachers, committed staff, proactive managing committee, vigilant security, a dedicated canteen, separate hostel facilities for boys and girls, a fleet of buses, a mineral water plant, spacious auditorium, and outdoor grounds, and all supported with uninterrupted power backup.

About the department

The Department of Electronics Communication and Engineering (ECE) was established in 2008. Ever since its inception, the department has been a pioneering academic center for higher education, research, and innovation in key areas of Electronics. The constantly changing dynamics of this Engineering stream poses challenges to students to stay updated with the latest developments. Our qualified faculty and advanced labs ensure that our students are well prepared to take on these challenges. The department attracts talented students from all over India. All graduates of ECE find excellent placements in research-oriented industries and top ranking MNC's.

The department currently offers 4 year Under Graduate Programs in Electronics Communication and Engineering.

Introduction:

Objectives:

The Objectives of IP Sixth Sense Technology are to learn about IP Sixth Sense Technology to be familiarized with universal electronics communication concepts like expectation, thinking to be familiarized with general electronics concepts like components & functions to be familiarized with general coding techniques and object-oriented techniques.

Outcomes:

Develop essential electronic skills in electronics communication concepts like IC's, transistors Apply the basics of electronics in the Sixth Sense Technology Solve executing tasks related circuits execution, circuit Solve execution tasks related to the fundamental notions and techniques used in object-oriented techniques.

Course content:

What is Sixth Sense Technology, how to develop Operations Using Sense Technology executing – Indexing & Slicing, Advanced integration, integral, logical.

Resource persons:

G. RAMADAS, MTech
Assistant Professor
Department of ECE

RK College of Engineering & Technology
Eligibility:

Faculty and students from AICTE approved Engineering colleges and Polytechnics & also participants from industries and R&D organizations.

Accommodation:

Accommodation will be provided for external participants in the college premises at student's hostel on demand.

Registration fee: Free

Scheduled date:

Last date for receipt of application: 13-10-2021

Intimation of selection by email : 15-10-2021

Department of ECE

NUMBER OF PARTICIPANTS

: 40

RK College of Engineering & Technology

TOPICS COVERED :

- What is Sixth Sense Technology?
- How to Key input device, art as a digital eye?
- Able to capture input by user gestures.
- Key output device and projects digital information from the device on the surface or wall.
- Microsoft enabled device and used as the brain of setup. It reflects the projection to the perfect desirable place
- Required when using a paper. Used as a setup. In figures, used as gestures or simply clicking images.
- Create a multimedia reading experience
- Making calls and interacting with physical objects
- Flight updates, Getting product information

PROGRAM OUTCOMES :

Develop essential communication skills in electronics concepts like the prototype for the SIXTH SENSE, GESTURE RECOGNITION in the mathematical algorithms an interface which solely relies on the gestures requires precise hand pose tracking, SIXTH SENSE PROTOTYPE tasks related to the fundamental notions and techniques used in object-oriented techniques.

Chairman

Aturi Srinivasa Reddy Chairman At A.M.Reddy Group, Learning is based on doing things and not merely knowing things, otherwise which the whole process will remain Superficial. Any engineering institution worth its name looks to optimize the productivity of global leaders.

Our institution has set specific objectives and planned activities for achieving excellence in all spheres of technical education. Great talent without will-power and hard work, is like hidden untapped precious natural resources. Our institution aims at bringing out these natural talents in students and leverages them for individual growth and excels in their careers too

Secretary

Engineering education plays a vital and most significant role in nation's building. Engineers create new inventions using best engineering technologies to make Human life more comfortable, secure, and productive.

In these modern times, nations which have rich engineering and experienced management domains are flourishing economically and are providing better lives to their people. We have excellent potential to grow in diversified areas and excel in Engineering and Management fields. We need numerous engineers and managers to develop plenty of successful inventions.

PROGRAMME REPORT

PROGRAMME	"TWO DAYS WORKSHOP ON RESEARCH ON FINGERPRINT IDENTIFICATION DEVICE"
RESOURCE PERSON	B. ANJIBABU, Asst. Prof., NIST, MACHERLA CELL: 9703437318 E-mail: anjibabubandaru@gmail.com
DATE OF ACTIVITY	25/10/2021 to 26/10/2021
ORGANIZED BY	Department of Electrical and Electronics Engineering
VENUE	Lecture Hall 304

OBJECTIVE OF THE WORKSHOP:

Fingerprint biometrics can be used to authenticate a person based on matching the data within a system, or it can be used as a method of identity verification to ensure that a person is who they say they are. Fingerprint biometrics can add an extra layer of security over password and token security measures.

OUTCOMES OF THE WORKSHOP:

All the students active participated in the workshop and understand the working of device and how it works and applications of the fingerprint identification

NUMBER OF STUDENTS ATTENDED TO WORKSHOP: 41

FEEDBACK OF THE WORKSHOP: Good

About the college:

A.M. Reddy Memorial College of Engineering and Technology (AMRN), popularly known as AM Reddy College was established in the year 2008, by A.M. REDDY EDUCATIONAL SOCIETY in Petturvaripalem, Narasaraopet, Palnadu (Dt.) by Sri. A. SRINIVASA REDDY, the Chairman. AM Reddy College is affiliated to Jawaharlal Nehru Technological University Kakinada and approved by AICTE. AM Reddy College is located little far from the hustle and bustle of the city life in a scenic and serene environment spread over an extensive 10.9425 acres amidst the lush fields just 3 kms away from Sub-Urban of Narasaraopet. The college meticulously implements quality policy, absolute discipline, well ventilated classrooms, multimodal teaching methodology, additional trainings for campus placements, caring teachers, committed staff, proactive managing committee, vigilant security, a dedicated canteen, separate hostel facilities for boys and girls, a fleet of buses, a mineral water plant, spacious auditorium, and outdoor grounds, and all supported with uninterrupted power backup.

About the department

The Department of Computer Science and Engineering (CSE) was established in 2008. Ever since its inception, the department has been a pioneering academic centre for higher education, research, and innovation in key areas of computer science. The constantly changing dynamics of this Engineering stream poses challenges to students to stay updated with the latest developments. Our qualified faculty and advanced labs ensure that our students are well prepared to take on these challenges. The department attracts talented students from all over India. All graduates of CSE find excellent placements in research-oriented industries and top ranking MNC's.

The department currently offers 4 year Under Graduate Programs in computer science and Engineering, and Cyber Security branches.

OBJECTIVE:

- To understand how to solve complex problems
- Analyze and design solutions to problems using object oriented approach
- Study the notations of Unified Modeling Language

OUTCOME:

- usage of Rational Rose software for UML diagrams
- Ability to find solutions to the complex problems using object oriented approach
- Represent classes, responsibilities and states using UML notation
- Identify classes and responsibilities of the problem domain

Course content:

UML - Building Blocks, UML - Architecture, UML - Modeling Types, UML - Basic Notations, UML - Standard Diagrams, UML - Class Diagram, UML - Object Diagram, UML - Component Diagram, UML - Deployment Diagram, UML - Use Case Diagram, UML - Interaction Diagram, UML - Statechart Diagram, UML - Activity Diagram

Resource persons:

N. ANUSHA, Asst. Professor, dept of CSE,
ESWAR COLLEGE OF ENGINEERING

Eligibility:

Faculty and students from AICTE approved Engineering colleges and Polytechnics & also participants from industries and R&D organizations.

Accommodation:

Accommodation will be provided for external participants in the college premises at student's hostel on demand.

Registration fee:
Free

Scheduled date:

Last date for receipt of application:

PROGRAM REPORT

NAME OF THE EVENT : web services –SOAP, WSDL
ORGANIZED BY : Department Of CSE
DATE : 30-11-2021
NUMBER OF DAYS : 01
VENUE : Seminar Hall, A.M.Reddy memorial college of engineering and technology
RESOURCE PERSON : M.RAVINDRA BABU,Asst.Professor
NUMBER OF PARTICIPANTS : 51
TOPICS COVERED :

Understanding Web Services

Benefits of Web Services

About the Web Services e-Business Transformation

SOAP Standard

Web Services Description Language (WSDL)

Universal Description, Discovery, and Integration (UDDI)

PROGRAM OUTCOMES :

- the students will be able to Recite the advantages of using XML technology family
- Analyze the problems associated with tightly coupled distributed software architecture
- Learn the Web services building block

FEEDBACK

: Good

EVENT COORDINATOR : P.IMRAN KHAN, Asst.professor

COORDINATOR

About us

AM Reddy College is located little far from the hustle and bustle of the city life in a scenic and serene environment spread over an extensive 10.9425 acres amidst the lush fields just 3 kms. away from Sub-Urban of Narasaraopet. The institute has set a benchmark in providing its students the very best in terms of infrastructure and academic services. The college meticulously implements quality policy, absolute discipline, well ventilated classrooms, multimodal teaching methodology, additional trainings for campus placements, caring teachers, committed staff, proactive managing committee, vigilant security, a dedicated canteen, separate hostel facilities for boys and girls, a fleet of buses, a mineral water plant, spacious auditorium, and outdoor grounds, and all supported with uninterrupted power backup.

Chairman

Aturi Srinivasa Reddy Chairman At A.M.Reddy Group, Learning is based on doing things and not merely knowing things, otherwise which the whole process will remain Superficial. Any engineering institution worth its name looks to optimize the productivity of global leaders. Our institution has set specific objectives and planned activities for achieving excellence in all spheres of technical education.

Great talent without will-power and hard work, is like hidden untapped precious natural resources. Our institution aims at bringing out these natural talents in students and leverages them for individual growth and excels in their careers too

Secretary

Engineering education plays a vital and most significant role in nation's building. Engineers create new inventions using best engineering technologies to make Human life more comfortable, secure, and productive.

In these modern times, nations which have rich engineering and experienced management domains are flourishing economically and are providing better lives to their people. We have excellent potential to grow in diversified areas and excel in Engineering and Management fields. We need

Principals engineers and managers to develop **Quality of successful inventions.**

FEEDBACK: Good

NUMBER OF STUDENTS ATTENDED TO SEMINAR: 47

Participants gain a better understanding of solar power technology, its benefits, and its role in renewable energy.

OUTCOMES OF THE SEMINAR:

To create electricity through either direct conversion (photo-voltaic cells) or indirectly (solar thermal). The main objective of solar panels Maui is to generate electricity from the sun, enabling you to reduce your dependency on fossil fuels

PROGRAMME REPORT

PROGRAMME NAME	A TWO DAYS WORKSHOP ON A RESEARCH INFUSED INQUIRY INTO SMART CITIES AND INTELLIGENT TRANSPORTATION SYSTEM
RESOURCE PERSON	Dr. R. RATNA PRASAD, VVIT College, 9490114986, rekapalli.rp@gmail.com
DATE OF ACTIVITY	22/03/2022 TO 23/03/2022
ORGANIZED BY	A.M. Reddy Memorial College Of Engineering And Technology
VENUE	A.M. Reddy Memorial College Of Engineering And Technology
NUMBER OF PARTICIPANTS	36

OBJECTIVE:

1. The primary objective is to enhance traffic flow and reduce congestion by implementing intelligent transportation systems that use real-time data, sensors, and communication technologies to optimize traffic signal timings and manage traffic flow dynamically.
2. Smart cities aim to promote sustainable transportation by integrating intelligent systems that encourage the use of public transit, cycling, and walking.
3. This includes the development of eco-friendly transportation options to reduce environmental impact.
4. The deployment of intelligent transportation systems contributes to improved safety through features like predictive analytics, automated incident detection, and smart surveillance, thereby reducing accidents and enhancing overall transportation security.

OUTCOME:

1. Smart cities leverage intelligent transportation systems to optimize traffic flow, reduce congestion
2. Enhance overall mobility through real-time data analysis and adaptive traffic signal control.
3. Integration of smart technologies in transportation contributes to reduced carbon emissions by promoting eco-friendly modes of transport, optimizing routes
4. Facilitating the adoption of electric vehicles within the urban infrastructure.

About the college:

A.M. Reddy Memorial College of Engineering and Technology (AMRN), popularly known as AM Reddy College was established in the year 2008, by A.M. REDDY EDUCATIONAL SOCIETY in Petturivaripalem, Narasaraopet, Palnadu (Dt.) by Sri. A. SRINIVASA REDDY, the Chairman. AM Reddy College is affiliated to Jawaharlal Nehru Technological University Kakinada and approved by AICTE. AM Reddy College is located little far from the hustle and bustle of the city life in a scenic and serene environment spread over an extensive 10.9425 acres amidst the lush fields just 3 kms away from Sub-Urban of Narasaraopet. The institute has set a benchmark in providing its students the very best in terms of infrastructure and academic services. The college meticulously implements quality policy, absolute discipline, well-ventilated classrooms, multimodal teaching methodology, additional trainings for campus placements, caring teachers, committed staff, proactive managing committee, vigilant security, a dedicated canteen, separate hostel facilities for boys and girls, a fleet of buses, a mineral water plant, spacious auditorium, and outdoor grounds, and all supported with uninterrupted power backup.

About the department

The Department of Computer Science and Engineering (ECE) was established in 2008. Ever since its inception, the department has been a pioneering academic centre for higher education, research, and innovation in key areas of Electronics. The constantly changing dynamics of this Engineering stream poses challenges to students to stay updated with the latest developments. Our qualified faculty and advanced labs ensure that our students are well prepared to take on these challenges. The department attracts talented students from all over India. All graduates of ECE find excellent placements in research-oriented industries and top ranking MNC's.

The department currently offers 4 year Under Graduate Programs in computer science and Engineering, and Cyber Security branches.

Introduction:

OBJECTIVES:

- Sensors detect train arrival and departure and send appropriate signals to microcontroller
- Microcontroller is programmed to operate motorized railway gates as per sensor input

OUTCOMES:

- Design and build your own Automated Railway Crossing Project
- Exposure to Embedded Systems
- Understand the structure and programming of microcontrollers
- Practical experience with DC motors, ICs and sensors

Course content:

Introduction

Automatic control system.

Working of automatic control system.

Overview of project

Introduction of automatic railway crossing system.

Simulation of power circuit in Proteous.

Resource person:

G. RAMADAS, MTEch

Assistant Professor

Department of ECE

M.P.R.MPOLYTECHNIC COLLEGE

Eligibility:

Faculty and students from AICTE approved

Engineering colleges and Polytechnics & also

participants from industries and R&D organizations.

Accommodation:

Accommodation will be provided for external participants in the college premises at student's hostel on demand.

Registration fee: Free

Scheduled date:

Last date for receipt of application: 12-05-2022

Chairman

Aturi Srinivasa Reddy Chairman At A.M.Reddy Group, Learning is based on doing things and not merely knowing things, otherwise which the whole process will remain Superficial. Any engineering institution worth its name looks to optimize the productivity of global leaders.

Our institution has set specific objectives and planned activities for achieving excellence in all spheres of technical education. Great talent without will-power and hard work, is like hidden untapped precious natural resources. Our institution aims at bringing out these natural talents in students and leverages them for individual growth and excels in their careers too

Secretary

Engineering education plays a vital and most significant role in nation's building. Engineers create new inventions using best engineering technologies to make Human life more comfortable, secure, and productive. In these modern times, nations which have rich engineering and experienced management domains are flourishing economically and are providing better lives to their people. We have excellent potential to grow in diversified areas and excel in Engineering and Management fields. We need numerous engineers and managers to develop a plenty of successful invention.
