To
The principal,
A.M.Reddy memorial College of Engineering & Technology
Petlurivaripalem,
Narasaraopet

Respected Sir,

Sub: Request approval to conduct Seminar/workshop/FDP

On "**RECENT ADVANCES IN ARTIFICIAL INTELLIGENCE AND MACHINE LANGUAGE**" -Reg,

The department of CSE is planning to conduct a Seminar/workshop/FDP on "**RECENT ADVANCES IN ARTIFICIAL INTELLIGENCE AND MACHINE LANGUAGE**" to All Department (Students/Staff) on 03-01-2022 to 07-01-2022 that benefits the students/staff for the Enhancing their knowledge. The resource person for the Seminar/workshop/FDP is S.S.N. ANJANEYULU, Associate Professor, A.M. REDDY MEMORIAL COLLEGE OF ENGINEERING & TECHNOLOGY. We request you to accord approval and grant the required amount for the smooth conduction of the Seminar/workshop/FDP.

Thanking you sir

ABOUT THE COLLEGE

A.M. Reddy Memorial College of Engineering and Technology (AMRN), popularly known as AM Reddy College was established in the year 2008, by A.M. REDDY EDUCATIONAL SOCIETY in Petlurivaripalem, Narasaraopet, Palnadu (Dt.) by Sri. A. SRINIVASA REDDY, the Chairman. AM Reddy College is affiliated to Jawaharlal Nehru Technological University Kakinada and approved by AICTE. AM Reddy College is located little far from the hustle and bustle of the city life in a scenic and serene environment spread over an extensive 10.9425 acres amidst the lush fields just 3 kms away from Sub-Urban of Narasaraopet. The institute has set a benchmark in providing its students the very best in terms of infrastructure and academic services. The college meticulously implements quality policy, absolute discipline, well ventilated classrooms, multimodal teaching methodology, additional trainings for campus placements, caring teachers, committed staff, proactive managing committee, vigilant security, a dedicated canteen, separate hostel facilities for boys and girls, a fleet of buses, a mineral water plant, spacious auditorium, and outdoor grounds, and all supported with uninterrupted power backup.

ABOUT THE DEPARTMENT

The CSE department offers B.Tech in Computer Science and Engineering. The department has well-equipped computer labs, qualified faculty, and industry collaborations. The department aims to provide quality education and training to the students in the field of computer science and engineering'. The department was established in 2008 with an intake of 120 students for the B.Tech program and 18 students for the M.Tech program. The department has six computer labs with 368 systems with high configuration and fully air-conditioned, along with an incubation center'. The department also conducts various events and activities to enhance the students' skills and knowledge.

ABOUT THE PROGRAMME:

A 5-days program on Recent advances in artificial intelligence and machine language. This programme related to recent advances in artificial intelligence and machine learning is quite broad, as these fields are rapidly evolving. However, I can provide you with a basic Python script that demonstrates the use of a popular deep learning library, such as Tensor Flow or PyTorch, for a task like image classification. This script won't capture the very latest advances but can serve as a starting point for understanding how to implement machine learning models. For a more specific and up-to-date example, I recommend checking the official documentation of the deep learning framework you are interested in, or exploring recent research papers on platforms like arXiv or conference proceedings like NeurIPS, ICML, or CVPR.

RESOURCE PERSON

1. **Dr.S.S.N. ANJANEYULU**

5-Days FDP on Recent advances in artificial intelligence and machine language

PROGRAMME OBJECTIVES

Date: 10-01-2022

This FDP aims to explore the research potential and challenges of “Recent advances in artificial intelligence and machine” which have become very popular in the research community in recent years.

The objectives of this FDP are:

1. Develop the problem-solving ability.
2. Incorporate knowledge representation.
3. Facilitate planning.
4. Allow continuous learning.
5. Encourage Social Intelligence.
6. Promote creativity.
7. Achieve General Intelligence.
8. Promote synergy between humans and AI.

5-Days FDP on Recent advances in artificial intelligence and machine language

Programme outcomes

Programme outcomes: Emphasize the new trends and concepts of recent advances in artificial intelligence and machine language.

1. Define and explain fundamental concepts in artificial intelligence and machine learning, including supervised and unsupervised learning, neural networks, deep learning, natural language processing, and reinforcement learning.
2. Implement and apply state-of-the-art machine learning algorithms to solve real-world problems, using programming languages such as Python and popular libraries like Tensor Flow or PyTorch.
3. Critically evaluate the performance of different machine learning models and algorithms for specific tasks and datasets, and select the most appropriate ones based on performance metrics.
4. Demonstrate proficiency in pre-processing and cleaning diverse datasets, as well as conducting feature engineering to enhance model performance.
5. Design, implement, and train deep neural networks for various tasks, such as image recognition, natural language processing, and generative tasks.

5-Days FDP on Recent advances in Artificial Intelligence and machine language

Summary Report

Date: 12-01-2022

Number of participants: 70

A 5-Days Faculty Development Programme (FDP) titled “Recent advances in artificial intelligence and machine” was organized for academic staff in A.M. REDDY MEMORIAL COLLEGE OF ENGINEERING & TECHNOLOGY. The program took place from January 3rd, 2022 to January 7th, 2022. The FDP was led by Dr.S.S.N.ANANEYULU, an Assoc. Professor in the Department of CSE at A.M.REDDY MEMORIAL COLLEGE OF ENGINEERING & TECHNOLOGY During this FDP, faculty members gained profound insights into the evolving research landscape, the essential considerations when publishing papers in esteemed journals, and various innovative teaching methodologies.

The inaugural ceremony on January 3rd, 2022 was graced by the presence of Smt.Atluri Santhi Srinivasa Reddy garu, the Secretary & Correspondent, Dr.Ch.Mallikarjuna, the Principal, by Dr.B.Chandrasekhar, the Head of the CSE department and the teaching staff from various departments.

On the same day, the session began with an introduction by the resource person, Dr.S.S.N.ANANEYULU

The second day's session commenced at 10 AM, with the resource person delivering a lecture on the How AI and machine learning work together

On the third day, the session also began at the usual time of 10 AM, with a lecture on the Capabilities of AI and machine learning.

On the fourth day, the session also began at the usual time of 10 AM, with a lecture on the Speech recognition and natural language understanding.

On the fifth day, the session also began at the usual time of 10 AM, with a lecture on the Benefits of AI and machine learning and increased operational efficiency

Respected Sir,

Sub: Request approval to conduct Seminar/workshop/FDP

On "**POWER ELECTRONICS APPLICATION TO ELECTRIC VEHICLES**"

-Reg,

The department of ECE & EEE is planning to conduct a Seminar/workshop/FDP on "**POWER ELECTRONICS APPLICATION TO ELECTRIC VEHICLES**" to All Department (Students/Staff) on **24-01-2022 to 29-01-2022** that benefits the students/staff for the Enhancing their knowledge. The resource person for the Seminar/workshop/FDP is **G.RAMDASU. Professor, A.M. REDDY MEMORIAL COLLEGE OF ENGINEERING & TECHNOLOGY**. We request you to accord approval and grant the required amount for the smooth conduction of the Seminar/workshop/FDP.

Thanking you sir

ABOUT THE COLLEGE

A.M. Reddy Memorial College of Engineering and Technology (AMRN), popularly known as AM Reddy College was established in the year 2008, by A.M. REDDY EDUCATIONAL SOCIETY in Petlurivaripalem, Narasaraopet, Palnadu (Dt.) by Sri. A. SRINIVASA REDDY, the Chairman. AM Reddy College is affiliated to Jawaharlal Nehru Technological University Kakinada and approved by AICTE. AM Reddy College is located little far from the hustle and bustle of the city life in a scenic and serene environment spread over an extensive 10.9425 acres amidst the lush fields just 3 kms away from Sub-Urban of Narasaraopet. The institute has set a benchmark in providing its students the very best in terms of infrastructure and academic services. The college meticulously implements quality policy, absolute discipline, well ventilated classrooms, multimodal teaching methodology, additional trainings for campus placements, caring teachers, committed staff, proactive managing committee, vigilant security, a dedicated canteen, separate hostel facilities for boys and girls, a fleet of buses, a mineral water plant, spacious auditorium, and outdoor grounds, and all supported with uninterrupted power backup.

ABOUT THE DEPARTMENT

The department of Electrical and Electronics Engineering (EEE) is part of the A.M.Reddy Memorial College of Engineering and Technology, which is located in Narasaraopet, Andhra Pradesh. The EEE department was established in the year 2008 with an intake of 60 students for the B.Tech program. It also offered M.Tech in Power Systems Engineering from 2012 to 2020 with an intake of 18 students. The vision of the department is to mould young and fresh minds into well-disciplined and competent engineers to excel in the field of Electrical and Electronics Engineering. The department has state-of-the-art laboratories, experienced faculty, and strong linkages with industry.

ABOUT THE PROGRAMME:

A 5-days program on Power Electronics Application to Electric Vehicles. This programme is designed as a comprehensive program for Power Electronics Applications to Electric Vehicles (EVs) over a 5-day period involving covering a range of topics, from the fundamentals of power electronics to specific applications in electric vehicle systems. Here's a suggested outline. Keep in mind that this is a condensed program, and each topic could be expanded based on the participants' background and the depth of coverage desired. Adjust the content based on the level of expertise of the audience and the specific goals of the program. Overview of power electronics and its role in electric vehicles. Basic power semiconductor devices (diodes, transistors, and thyristors). Understanding power electronic converters (AC-DC, DC-DC, DC-AC). Overview of different converter topologies and their applications.

RESOURCE PERSON

Dr.V.PRAVEEN KUMAR

Associate Professor

PROGRAMME CONTENTS

- ❖ Basics of Power Electronics
- ❖ Electric Vehicles Fundamentals
- ❖ Power Semiconductor Devices in Detail
- ❖ Power Converters in EVs
- ❖ Wireless Charging for EVs
- ❖ Thermal Management in EVs
- ❖ Future Trends and Case Studies

Chief Guest :

1. Dr. V. Naga Malleswari - HOD, EEE, NRI College
2. Dr. V. Praveen Kumar - HOD, EEE, Eswar College

Guest of Honor:

1. Smt. Atluri Santhi (Secretary)
2. Sri G. Chandrasekhar Reddy (President)

Guests:

1. Sk. Kalam - Assoc. Prof. - EEE, NEC College
2. A. Srinivasarao - Asst. Prof. - EEE, GEC College

Important Dates

Last Date for Registration : 19-01-2022

Programme Schedule: 24-01-2022 to 29-01-2022.

Registration Fee: Rs-500/-

Spot Registrations
Are also accepted

SCHEDULE SHEET

DATE	TOPIC
DAY 1	Introduction to Power Electronics Application to Electric Vehicles
	Power semiconductor devices are electronic components used to control and convert electrical power
DAY 2	Transmission and reception of power high enough to enable the operation of other electrical devices
	Challenges for Power Electronics in EVs
DAY 3	Intro EV Historical Background, Benefits, Overview of types of EVs and its Challenges
	Intro EV Motor Drive Technologies and Energy Source and Battery Charging Technologies
DAY 4	Intro EV Subsystems and Configurations and Subsystems and Modes of Operation
	Intro EV Subsystems and Configurations, Vehicle Dynamics and dynamic equation
DAY 5	Vehicle Dynamics Modelling and simulation in Simulink
	Summary Electric Vehicles

5-Days FDP on Power Electronics Application to Electric Vehicles

PROGRAMME OBJECTIVES

Date: 01-02-2022

This FDP aims to explore the research potential and challenges of Power Electronics Application to Electric Vehicles, which have become very popular in the research community in recent years.

The objectives of this FDP are:

1. To give a thorough introduction to the basic principles and the latest education system in the country.
2. To emphasize the new trends and concepts of EVs Design & Modelling.
3. To enhance the efficiency and sustainability of electrical power conversion knowledge and skills of faculties, industry delegates.
4. Researchers focus on developing efficient technologies and optimizing power systems to reduce energy waste and enhance overall performance.

5-Days FDP on Power Electronics Application to Electric Vehicles

PROGRAMME OUTCOMES

Programme outcomes: Emphasize the new trends and concepts of Power Electronics Application to Electric Vehicles

1. **Fundamental Knowledge:** It introduces the reliability requirements and challenges given for the power electronics applied in EV/HEV applications
2. **Design Competence:** It is advances in power electronic components to address the reliability challenges are introduced as they individually contribute to the overall system reliability awareness and basic training.
3. **Ambitious mission Aims:** The reliability-oriented design methodology is also discussed, including two examples: an EV onboard charger and the drive train inverter aim to provide awareness on EVs to 1 million students.
4. **Policy envisions:** an outlook in terms of research opportunities in power electronics reliability related to EV/HEVs is provided.
5. **Testing and Verification:** Master methods for testing and verifying EV/HEVs designs to ensure reliability and functionality.
6. **Emerging Technologies Integration:** Inventors, designers, developers and authors can protect the ideas they have developed, for instance by means of copyright or patents.

5-Days FDP on Power Electronics Application to Electric Vehicles

Summary Report

Date: 03-02-2022

Number of participants: 75

A 5-Days Faculty Development Programme (FDP) titled “Power Electronics Application to Electric Vehicles” was organized for academic staff in **A.M. REDDY MEMORIAL COLLEGE OF ENGINEERING & TECHNOLOGY**. The program took place from January 24th 2022 to January 29th, 2022. The FDP was led by **Dr.V.PRAVEEN KUMAR**, an Assoc .Professor in the Department of EEE at M.P.R.M Polytechnic College. During this FDP, faculty members gained profound insights into the evolving research landscape, the essential considerations when publishing papers in esteemed journals, and various innovative teaching methodologies.

The inaugural ceremony on January 24th, 2022, was graced by the presence of Smt. Atluri Santhi Srinivasa Reddy garu, the Secretary Correspondent, Dr.Ch.Mallikarjuna, The Principal, by Dr.Y.Prakash, the Head of the EEE department, and the teaching staff from various Departments.

On the same day, the session began with an introduction by the resource person, **Dr.V.PRAVEEN KUMAR**

The second day's session commenced at 10 AM, with the resource person delivering a lecture on the objectives of Importance of the role of EVs/HEV systems.

On the third day, the session also began at the usual time of 10 AM, with a lecture on the Intro EV Motor Drive Technologies and Energy Source and Battery Charging Technologies

On the fourth day, the session also began at the usual time of 10 AM, with a lecture on Design Structure Intro EV Subsystems and Configurations and Subsystems and Modes of Operation

On the fifth day, the session also began at the usual time of 10 AM, Vehicle Dynamics modelling and simulation in Simulink.

ABOUT THE COLLEGE

A.M. Reddy Memorial College of Engineering and Technology (AMRN), popularly known as AM Reddy College was established in the year 2008, by A.M. REDDY EDUCATIONAL SOCIETY in Petlurivaripalem, Narasaraopet, Palnadu (Dt.) by Sri. A. SRINIVASA REDDY, the Chairman. AM Reddy College is affiliated to Jawaharlal Nehru Technological University Kakinada and approved by AICTE. AM Reddy College is located little far from the hustle and bustle of the city life in a scenic and serene environment spread over an extensive 10.9425 acres amidst the lush fields just 3 kms away from Sub-Urban of Narasaraopet. The institute has set a benchmark in providing its students the very best in terms of infrastructure and academic services. The college meticulously implements quality policy, absolute discipline, well ventilated classrooms, a dedicated canteen, separate hostel facilities for boys and girls, a fleet of buses, a mineral water plant, spacious auditorium, and outdoor grounds, and all supported with uninterrupted power backup.

ABOUT THE DEPARTMENT

The Department of Civil Engineering started functioning from the year 2009 in B.Tech programme with a permitted intake of 60 students and M.Tech with Structural Design, and Transportation Engineering specializations started functioning from the years 2013, and 2014 respectively with 18 students each in these two specializations. The Polytechnic programme in Civil (DCE) started in the year 2013 with 60 intake. The department is equipped with state-of-the-art laboratory facilities in the areas of SE, TE, GT, EE, Surveying, Hydraulics and Hydraulics Machinery. In addition, the department has simulation labs in Pavement Analysis and Design, Geographic Information Systems. The department is also equipped with an exclusive library in addition to the central library, with several volumes, titles including e-journals and print journals.

ABOUT THE PROGRAMME:

A 5-days program on Applications of total stations and levelling with latest trends. This script simulates leveling data where a leveling instrument measures the height differences between consecutive points. It then plots the height differences against the distance. This is a basic example, and in a real-world scenario, you would import and analyze data collected from a total station or leveling instrument. As for the latest trends, the field of surveying has seen advancements with the integration of Geographic Information System (GIS), Building Information Modeling (BIM), and cloud-based collaboration. Additionally, advancements in total station technology often include features such as laser scanning, reflectorless measurement, and wireless data transfer. Keep in mind that specific features and trends may vary among different total station models and manufacturers.

A 5- days FDP on Applications of total stations and levelling with latest trends

PROGRAMME OBJECTIVES

Date: 21-02-2022

1. Develop proficiency in the operation and calibration of total stations and levelling instruments, including understanding their features, limitations, and appropriate usage.
2. Enable students to plan and execute surveys using total stations and levelling techniques, considering factors such as accuracy requirements, terrain characteristics, and project objectives.
3. Provide skills in data collection using total stations and levelling instruments and processing the collected data using modern software tools for accurate mapping, contouring, and analysis.
4. Understand and apply the integration of total stations with Global Navigation Satellite Systems (GNSS) for improved accuracy, especially in geospatial data collection in challenging environments.
5. Familiarize students with real-time data processing techniques, allowing for on-site analysis and decision-making, reducing the time required for post-survey data processing.

A 5- days FDP on Applications of total stations and levelling with latest trends

PROGRAMME OUTCOMES

Programme outcomes: The programme outcomes for the Applications of total stations and levelling with latest trends

1. Familiarity with the latest total station models and levelling instruments, including robotic total stations and digital levels. Ability to adapt to new and emerging technologies in surveying.
2. Awareness of legal and ethical considerations in surveying, including property boundaries and land rights. Understanding the importance of accuracy and precision in legal survey documents.
3. Integration of robotics in total stations for automated surveying processes, reducing the need for manual intervention.
4. Total stations equipped with advanced communication features for real-time data transfer and remote control. Use of AR technology in surveying applications, providing real-time overlays of survey data on the field.

A5- days FDP on Applications of total stations and levelling with latest trends

Summary Report

Date: 23-02-2022

Number of participants: 76

A 5-days Faculty Development Programme (FDP) titled “**Applications of total stations and levelling with latest trends**” was organized for academic staff in **A.M. REDDY MEMORIAL COLLEGE OF ENGINEERING & TECHNOLOGY**. The program took place from February 14th, 2022, to February 18th, 2022. The FDP was led by **Dr.S.MADHU BALA** an Assoc. Professor & HOD in the Department of CIVIL at PRIYADRASHNI INSTITUTION OF TECHNOLOGY AND MANAGEMENT. During this FDP, faculty members gained profound insights into the evolving research landscape, the essential considerations when publishing papers in esteemed journals, and various innovative teaching methodologies.

The inaugural ceremony on February 14th, 2022, was graced by the presence of **Smt. Atluri Santhi Srinivasa Reddy** garu, the Secretary & Correspondent **Dr.Ch.Mallikarjuna**, the Principal, **Dr.BALA MURUGAN**, the Head of the CIVIL department, and the teaching staff from various departments.

On the same day, the session began with an introduction by the resource person, **Dr.S.MADHU BALA**

The second day's session commenced at 10 AM, with the resource person delivering a lecture on the Components and features of a total station. Setting up and calibrating a total station.

On the third day, the session also began at the usual time of 10 AM, with a lecture on the Principles of levelling in surveying. Different types of levelling instruments (dumpy level, auto level).

On the fourth day, the session also began at the usual time of 10 AM, with a lecture on the High precision measurements and monitoring. 3D laser scanning and modelling with total stations.

On the fifth day, the session also began at the usual time of 10 AM, with a lecture on the Overview of the latest trends in surveying technology Applications of artificial intelligence and machine learning in surveying

ABOUT THE COLLEGE

A.M. Reddy Memorial College of Engineering and Technology (AMRN), popularly known as AM Reddy College was established in the year 2008, by A.M. REDDY EDUCATIONAL SOCIETY in Petlurivaripalem, Narasaraopet, Palnadu (Dt.) by Sri. A. SRINIVASA REDDY, the Chairman. AM Reddy College is affiliated to Jawaharlal Nehru Technological University Kakinada and approved by AICTE. AM Reddy College is located little far from the hustle and bustle of the city life in a scenic and serene environment spread over an extensive 10.9425 acres amidst the lush fields just 3 kms away from Sub-Urban of Narasaraopet. The institute has set a benchmark in providing its students the very best in terms of infrastructure and academic services. The college meticulously implements quality policy, absolute discipline, well ventilated classrooms, multimodal teaching methodology, additional trainings for campus placements, caring teachers, committed staff, proactive managing committee, vigilant security, a dedicated canteen, separate hostel facilities for boys and girls, a fleet of buses, a mineral water plant, spacious auditorium, and outdoor grounds, and all supported with uninterrupted power backup.

ABOUT THE DEPARTMENT

The MBA department offers a two-year postgraduate program in management with 60 seats available. The MBA program aims to develop competent managers with analytical skills, decision-making abilities, and leadership qualities for various sectors of the economy. The MBA department has qualified faculty with industry experience and research expertise who provide quality education and training to the students. The MBA department also organizes seminars, workshops, industrial visits, guest lectures, and placement activities to enhance the knowledge, skills, and employability of the students. The MBA department follows the curriculum and guidelines of the Jawaharlal Nehru Technical University and is accredited by the All India Council for Technical Education.

ABOUT THE PROGRAMME:

A One-day program on Project management is a broad field, and the specific program or software you use can depend on your needs, preferences, and the size of your projects. One popular project management methodology is the agile framework, and a widely used tool for agile project management is Jira. Below, I'll provide you with a simple example of a project management program using Jira, but keep in mind that there are many other tools and methodologies available. Remember that this is just a basic outline, and the actual implementation may vary based on your team's specific needs and the nature of your projects. Additionally, there are other popular project management tools like Trello, Asana, and Microsoft Project that you might consider based on your preferences and requirements.

One day training programme on project management and fundamentals

PROGRAMME OBJECTIVES

Date: 18-02-2022

This Programme aims to explore the research potential and challenges of project management and fundamentals which have become very popular in the research community in recent years.

The objectives of this Programme are:

1. Define Clear Project Goals: Clearly define the project's objectives, scope, and expected outcomes to ensure everyone involved understands what needs to be achieved.
2. Scope Management: Ensure the project stays within its defined scope to prevent scope creep, which can lead to delays and budget overruns.
3. Schedule Management: Develop and maintain a project schedule that outlines key milestones and deadlines to keep the project on track.
4. Budget Management: Control project costs and ensure that the project stays within the allocated budget.
5. Risk Management: Identify, assess, and mitigate project risks to minimize the potential impact on the project's success.

Respected Sir,

Sub: Request approval to conduct Seminar/workshop/FDP

On "**BEHAVIOR OF FLUID AT BENDS**" -Reg,

The department of **ME** is planning to conduct a Seminar/workshop/FDP on "**BEHAVIOR OF FLUID AT BENDS**" to All Department (Students/Staff) on **18-04-2022 to 22-04-2022** that benefits the students/staff for the Enhancing their knowledge. The resource person for the Seminar/workshop/FDP is **Dr.D.VENKATA RAO Associate Professor, A.M. REDDY MEMORIAL COLLEGE OF ENGINEERING & TECHNOLOGY**. We request you to accord approval and grant the required amount for the smooth conduction of the Seminar/workshop/FDP.

Thanking you sir

ABOUT THE COLLEGE

A.M. Reddy Memorial College of Engineering and Technology (AMRN), popularly known as AM Reddy College was established in the year 2008, by A.M. REDDY EDUCATIONAL SOCIETY in Petlurivaripalem, Narasaraopet, Palnadu (Dt.) by Sri. A. SRINIVASA REDDY, the Chairman. AM Reddy College is affiliated to Jawaharlal Nehru Technological University Kakinada and approved by AICTE. AM Reddy College is located little far from the hustle and bustle of the city life in a scenic and serene environment spread over an extensive 10.9425 acres amidst the lush fields just 3 kms away from Sub-Urban of Narasaraopet. The institute has set a benchmark in providing its students the very best in terms of infrastructure and academic services. The college meticulously implements quality policy, caring teachers, committed staff, proactive managing committee, vigilant security, a dedicated canteen, separate hostel facilities for boys and girls, a fleet of buses, a mineral water plant, spacious auditorium, and outdoor grounds, and all supported with uninterrupted power backup.

ABOUT THE DEPARTMENT

The department of mechanical engineering was established in the year of 2008 offering B.Tech in ME with an intake of 60 every academic year and M.Tech in MECHANICAL intake 60 in each Academic year. The department consists of 1 Computer Labs having 60 systems with high configuration and fully Air Conditioned, along with incubation Centre. The B.Tech computer engineering program includes computer operations on different languages, data generation, collection and utilization of information. Mechanical engineering is one of the broadest engineering disciplines. Mechanical engineers design, develop, build, and test. They deal with anything that moves, from components to machines to the human body. Mechanical engineering is the study of physical machines that may involve force and movement.

ABOUT THE PROGRAMME:

A 5-days program on Behavior of fluid at bends that covers various aspects of this field. This program includes combination of fluid dynamics, numerical methods, and programming. However, I can provide you with a general outline for a 5-day plan to approach this task. Keep in mind that this is just a guideline, and the actual implementation may vary based on your specific requirements and the tools you choose. Remember that this is a high-level outline, and each step may involve significant details and considerations. Consulting with experts in fluid dynamics and numerical simulation can be valuable during this process.

5-days FDP on Behaviour of fluid at bends

PROGRAMME OBJECTIVES

Date: 25-04-2022

1. Develop a solid foundation in fluid dynamics principles, including viscosity, turbulence, and the effects of curvature on fluid flow.
2. Enable students to formulate mathematical models that describe fluid behaviour in curved conduits, emphasizing the derivation and solution of equations governing curved flow.
3. Develop proficiency in using computational fluid dynamics (CFD) tools to simulate and analyze fluid flow in bends, allowing students to predict and visualize complex flow patterns.
4. Apply theoretical knowledge to practical engineering problems, focusing on the analysis and design of systems involving curved conduits, such as piping networks and transportation of fluids.
5. Familiarize students with experimental techniques for studying fluid behaviour at bends, including flow visualization methods and laboratory experiments to validate theoretical predictions.

5-days FDP on Behaviour of fluid at bends

PROGRAMME OUTCOMES

Programme outcomes: The programme outcomes for the Behaviour of fluid at bends

1. Graduates will have a solid understanding of the fundamental principles of fluid mechanics, including properties of fluids, fluid behaviour, and the relevance of studying fluid flow at bends.
2. Ability to apply the Navier-Stokes equations to analyze fluid flow, especially in bends, and an understanding of the governing equations for fluid dynamics.
3. Competence in applying Bernoulli's equation to assess fluid behaviour, pressure changes, and velocity variations in bends.
4. Proficient in using experimental techniques to study fluid flow at bends, including familiarity with laboratory setups, measurements, and data analysis.
5. Capability to employ numerical methods and computational fluid dynamics (CFD) for simulating and predicting fluid behaviour at bends.
6. Ability to critically analyze fluid flow problems at bends, identifies challenges, and proposes effective solutions.
7. Understanding of design principles to minimize flow disturbances and optimize the configuration of bends in fluid systems.

5-days FDP on Behaviour of fluid at bends

Summary Report

Date: 27-04-2022

Number of Participants: 72

A 5-days Faculty Development Programme (FDP) titled “**Behaviour of fluid at bends**” was organized for academic staff in **A.M. REDDY MEMORIAL COLLEGE OF ENGINEERING & TECHNOLOGY**. The program took place from April 18th, 2022, to April 22nd, 2022. The FDP was led by **Dr.D.VENKATARAO** an Assoc. Professor & HOD in the Department of MECHANICAL at KALLAM HARANADHA REDDY INSTITUTE OF TECHNOLOGY. During this FDP, faculty members gained profound insights into the evolving research landscape, the essential considerations when publishing papers in esteemed journals, and various innovative teaching methodologies.

The inaugural ceremony on April 18th, 2022, was graced by the presence of Smt. Atluri Santhi Srinivasa Reddy Garu, the Secretary & Correspondent Dr.Ch.Mallikarjuna, The Principal, Dr.M.Ramakotaiah, the Head of the Mechanical department, and the teaching staff from various departments.

On the same day, the session began with an introduction by the resource person, **Dr.D.VENKATARAO**

The second day's session commenced at 10 AM, with the resource person on the Understanding the assumptions and limitations Application to bends and curved flow

On the third day, the session also began at the usual time of 10 AM, with a lecture on the Characteristics and equations, Behaviour of laminar flow at bends

On the fourth day, the session also began at the usual time of 10 AM, with a lecture on the Overview of experimental setups for studying bends Laboratory demonstrations

On the fifth day, the session also began at the usual time of 10 AM, with a lecture on the Practical session on setting up and running CFD simulations Analysis of simulation results for bends and Conclusions
