FEEDBACK FORM FOR SOFT SKILLS PROGRAM

We appreciate your participation in our Soft Skills program. Your feedback is valuable to us as it helps us improve the quality of our programs. Please share your opinions with us.

Basic Information:

Your Name (Optional) :----- k. Abhigna -----
Date of the Program :----- 18 August 2018 -----
Department :----- Agriculture -----

1. How do you rate the content of the Soft Skills program overall?
 - Excellent
 - Very Good
 - Good
 - Fair
 - Poor
2. Were the sessions well-planned and organized?
 - Yes
 - No
 - Not Sure
3. How do you rate the performance of the facilitators/instructors?
 - Excellent
 - Very Good
 - Good
 - Fair
 - Poor
4. Did the facilitators encourage active involvement and interaction?
 - Yes
 - No
 - Not Sure
5. How much do you think the Soft Skills program will help you in your academic and professional life?
 - Extremely Helpful
 - Very Helpful
 - Somewhat Helpful
 - Not Helpful
6. How satisfied are you with the Soft Skills program overall?
 - Very Satisfied
 - Satisfied
 - Neutral
 - Dissatisfied
7. Any other comments or suggestions?----- It is very helpful to
improve skills -----

Thank you for completing this feedback form. Your input is important to us in enhancing our future Soft Skills programs.

The Training and Placement Cell at A.M. Reddy Engineering College arranged a five-day training program on **"Interview Presentation and Job Opportunities"**. Our principal spearheaded the endeavour, which began with a technical speech. The guest speaker continued to discuss the importance of skills in relation to job chances after his remarks.

The program was attended by all B. Tech final-year students. They actively asked the speaker lot of questions on carrier opportunities and interview presentation. Throughout the session, lively debates erupted as the speaker and students exchanged view points. The program coordinator gave vote of appreciation to wrap up the occasion.

PROGRAMME REPORT

Program Title	Grammar and Syntax in English
Resource person	Pasumarthi Mary Beulah Associate professor Krishnaveni Engineering College for Women E mail id: enoshnissy1217@gmail.com Mobile no: 8523858540
Duration of activity	August-16- 2018 to August -18- 2018
Organized by	A.M. REDDY MEMORIAL COLLEGE OF ENGINEERING AND TECHNOLOGY
No of students participated	84

Introduction:

A one-week training program on "Basic Grammar for Communication and Syntax in English" was conducted from 16th August 2022 to 21st August 2022. The program was initiated and organized by Principal Dr. K. Ramakrishna, and it was hosted by the Training and Placement Cell of our institution. The main objective of this program was to equip students with essential grammar skills to excel in placement tests and competitive exams.

Program Highlights:

Inaugural Address:

The program commenced with an inaugural address by Principal Dr. M. Ramakrishna, who expressed his gratitude to the resource speaker for their valuable contribution in organizing this training program. He highlighted the importance of mastering grammar skills for succeeding in job placement tests and other competitive examinations.

Resource Speaker's Sessions:

The resource speaker conducted informative sessions that covered the fundamental aspects of English grammar. They emphasized the significance of grammar in answering placement tests and competitive exams. The speaker provided clear explanations and practical examples to help students grasp these concepts effectively.

Principal
A.M. REDDY MEMORIAL COLLEGE OF
ENGINEERING & TECHNOLOGY
PETLURIVARI PALEM
Narasaraopet (Midi), Guntur, Dr.

Active Participation:

Students actively engaged in the sessions, and they were encouraged to ask questions and seek clarifications. The resource speaker's interactive teaching style allowed students to gain a deeper understanding of grammar rules and syntax.

Confidence Building:

By the end of the training program, participants had significantly improved their grammar skills and were more confident in their ability to answer grammar-related questions in placement tests and competitive exams. The emphasis on practice and application of grammar concepts helped boost their confidence.

Importance of Grammar: It was emphasized that grammar questions are a common component of various competitive exams, and having a strong foundation in grammar is essential for success. The program underscored that proficient grammar skills not only help in written tests but also in effective communication, both verbally and in writing.

Practice Materials:

As part of the program, practice papers and exercises were provided to the participants. These materials allowed students to reinforce their learning and hone their grammar skills through practical.

PROGRAM REPORT

Programme Title	A Vocabulary and Reading Comprehension Workshop.
Resource person	K.G.B. Gowri Assistant Professor Eswar College of Engineering, Kesanupalli, NRT ✉ : kbgowriadi@gmail.com ☎ : 8790363601
Duration of activity	19-09-2019 TO 21-09-2019
Organized by	A.M. REDDY MEMORIAL COLLEGE OF ENGINEERING AND TECHNOLOGY
Venue	Seminar hall
No of students participated	200

Objective:

The comprehensive three-day workshop, "A Vocabulary and Reading Comprehension," was meticulously designed to equip final-year students in the Departments of CIVIL, MECH, ECE, CSE, and AGE with essential language skills crucial for their academic and professional journeys. The program aimed to go beyond traditional teaching methods, fostering a dynamic and participative learning environment.

Day 1: Vocabulary Enrichment

On the inaugural day, participants delved into a rich exploration of language. Engaging activities, interactive sessions, and word games were employed to make the process of vocabulary building both enjoyable and effective. The focus was not just on generic language improvement but also on industry-specific terminology, tailoring the content to the technical demands of each department.

Day 2: Reading Comprehension Strategies

Day two was dedicated to empowering students with advanced reading comprehension strategies. The workshop covered a spectrum of techniques, including critical analysis, information extraction, and understanding intricate technical documents. Through practical exercises and real-world case studies, participants learned to apply these strategies to navigate complex texts encountered in their academic and professional spheres.

Day 3: Integration and Application

The concluding day of the workshop emphasized the integration and practical application of the acquired skills. Participants engaged in group discussions, delivered presentations, and completed written

A.M. REDDY MEMORIAL COLLEGE OF
ENGINEERING AND TECHNOLOGY
PETLURIVARIPALEM
Narasaraopet (Mdi), Guntur (Dt)

Exercises, simulating scenarios akin to job interviews and professional communication settings. This immersive experience enabled students to synthesize their newly acquired vocabulary and comprehension skills in a real-world context.

Outcomes:

Improved Vocabulary: Participants left the workshop with a significantly expanded and industry-relevant vocabulary, enhancing their ability to express ideas and concepts with precision and confidence.

Enhanced Reading Comprehension Skills: Through the application of advanced strategies, students developed a heightened capacity for critical analysis and interpretation of complex technical texts, enhancing their academic and professional reading capabilities.

Effective Communication: The integration of vocabulary and comprehension skills empowered students to communicate more effectively, a crucial aspect for excelling in job interviews, academic presentations, and future professional interactions.

Conclusion:

The three-day workshop on "A Vocabulary and Reading Comprehension" served as a transformative experience for the participating final-year students. Beyond the acquisition of language skills, the program instilled a sense of confidence and adaptability, positioning these students for success in their academic pursuits and the challenges of their future professional endeavors. The holistic approach to language development ensured that the participants not only learned but also internalized and applied these skills for continued growth.

PROGRAMME REPORT

Programme Title	"A Three-Days Training Program on Cloze Testing, Error Detection and Writing and Speaking With Impact."
Resource person	Pasumarthi Mary Beulah Associate professor Krishnaveni Engineering College for Women E mail id: enoshnissy1217@gmail.com Mobile no: 8523858540
Duration of activity	29-12-2020 TO 31-12-2020
Organized by	A.M. REDDY MEMORIAL COLLEGE OF ENGINEERING AND TECHNOLOGY
Venue	College seminar hall
No of students participated	198

Objective:

The overarching objective of this meticulously crafted three-day training program is to provide participants with a transformative learning experience, elevating their language proficiency to new heights. The program centers on three core components: cloze testing, error detection, and the art of impactful writing and speaking. By immersing participants in these facets, the aim is not only to excel in language assessments but to empower individuals with versatile communication skills essential for success in diverse professional and academic contexts.

Day 1: Cloze Testing Mastery

The inaugural day is dedicated to the intricate skill of mastering cloze testing. Participants will engage in dynamic sessions that go beyond conventional approaches, enabling them to navigate passages with confidence. Through a series of hands-on activities, real-world examples, and collaborative discussions, participants will develop the ability to discern contextual cues, understand vocabulary nuances, and strategically choose the most appropriate words to fill in the blanks. This foundational day sets the stage for a comprehensive understanding of how to approach and excel in various cloze test scenarios.

Day 2: Error Detection Skills

The focus of day two is on refining error detection skills, an essential aspect of language proficiency. Participants will delve deep into the subtleties of grammar, syntax, and spelling, gaining a nuanced understanding of common language errors. The day combines theoretical insights with practical exercises, challenging participants to identify and correct errors actively. Interactive discussions will facilitate a dynamic learning environment, encouraging participants to engage critically with the material. By the end of the day, participants will not only have enhanced their precision and accuracy in written communication but will also have developed a discerning eye for identifying language nuances.

A.M. REDDY MEMORIAL COLLEGE OF
ENGINEERING & TECHNOLOGY
PETLURIVARI PALEM
Narasaraopet (Dist), Guntur Dt

Day 3: Writing and Speaking with Impact

The culminating day is devoted to the art of impactful writing and speaking. Participants will explore strategies for crafting compelling written content and delivering persuasive verbal communication. The curriculum covers effective message structuring, audience engagement techniques, and the art of conveying ideas with clarity and impact. Through a series of practical exercises, including writing assignments and public speaking simulations, participants will have the opportunity to apply their newfound skills in a supportive and constructive environment. This final day ensures that participants not only understand the principles of impactful communication but also gain hands-on experience in applying these principles to real-world scenarios.

Outcomes:

Cloze Testing Proficiency: Participants will leave the program with a heightened ability to approach and succeed in various cloze test scenarios, having cultivated the skills to decipher context, understand vocabulary nuances, and strategically select appropriate words.

Error Detection Mastery: The training will empower participants to identify and rectify grammatical, syntactical, and spelling errors, fostering precision and accuracy in their written communication.

Impactful Communication: Participants will acquire the skills necessary to write and speak with impact, ensuring that their messages are not only clear and concise but also resonate with their intended audience.

Conclusion:

This three-day training program serves as a comprehensive journey towards language proficiency mastery. By systematically addressing cloze testing, error detection, and impactful communication, participants not only gain the tools to excel in language assessments but also develop versatile and adaptive communication skills. The program's interactive and immersive nature fosters immediate application of learning, ensuring that participants leave with the confidence and competence to navigate language challenges in diverse professional and academic settings.

Report on Three-Day Training Program on Communication Strategies for Today's Professionals

Introduction:

The three-day training program aimed to empower professionals with advanced communication strategies to thrive in today's dynamic workplace. With a comprehensive agenda spanning key aspects of communication, the program sought to enhance both interpersonal and professional communication skills.

Day 1: Mastering Technical Communication

Objective: Lay the groundwork for effective technical communication.

Topics Covered:

- Understanding nuances in technical language.
- Overcoming common challenges in conveying complex information.
- Hands-on exercises and group discussions.

Outcomes:

Participants gained insights into crafting clear and concise technical messages.
Practical application of communication strategies through interactive activities.

Day 2: Strategies for Effective Collaboration

Objective: Explore collaborative communication within professional teams.

Topics Covered:

- The role of communication in team dynamics.
- Strategies for collaborative problem-solving.
- Crisis communication in project environments.

Outcomes:

Participants developed a deeper understanding of effective team communication.

Enhanced crisis communication preparedness.

Day 3: Elevating Your Professional Presence

Objective: Elevate participants' overall professional communication and presence.

Topics Covered:

- Strategic communication for career advancement.
- Public speaking skills and overcoming public speaking anxiety.
- Networking strategies for building professional relationships.

Outcomes:

Participants showcased improved public speaking and networking skills.

Individual and group presentations provided practical application opportunities.

Feedback and Participant Reactions:

Conclusion:

The Three-Day Training Program on Communication Strategies for Today's Professionals was a resounding success, fostering a dynamic learning environment. Participants left equipped with a deeper understanding of technical communication, collaborative strategies, and enhanced professional presence. The program not only met but exceeded expectations, contributing significantly to the participants' skills essential for success in today's professional landscape. The constructive feedback received will be incorporated to enhance future iterations of similar programs.

Report: A Three-Day Training Program on “Enhancing Verbal and Written Communication for Professionals”

Introduction:

The three-day training program aimed at refining the communication skills of professionals concluded successfully. In an ever-evolving professional landscape where effective communication is a cornerstone of success, the Three-Day Training Program on Enhancing Verbal and Written Communication for Professionals was meticulously designed. This initiative recognized the paramount importance of not only verbal eloquence but also the artful mastery of written expression in the contemporary workplace.

Over the course of three days, this comprehensive program aimed to empower professionals with a profound understanding of the intricacies of communication. It sought to equip participants with not only the theoretical foundations but also the practical skills necessary to navigate the complex terrain of professional interaction. The program's dual focus on verbal and written communication addressed the holistic nature of effective workplace dialogue.

Day 1: Foundations of Effective Communication

Objective:

Establish a strong foundation in communication principles.

Agenda:

- Understanding the importance of effective communication.
- Exploring the nuances of verbal and non-verbal communication.
- Interactive sessions on active listening skills.
- Practical exercises to enhance clarity and articulation.

Outcomes:

- Participants gained insights into the key elements of effective communication.
- Improved awareness of non-verbal cues and their impact on communication.
- Enhanced active listening skills through hands-on exercises.

Day 2: Mastering Written Communication

Objective:

Develop advanced written communication skills.

Agenda:

- Exploring the art of impactful writing.
- Strategies for clear and concise business writing.
- Grammar and style refinement.
- Real-world scenarios for practical application.

Outcomes:

- Participants acquired techniques for crafting clear and concise written messages.
- Improved grammar and style in professional writing.
- Practical application of skills through scenario-based exercises.

Day 3: Integrating Verbal and Written Skills

Objective:

Synthesize verbal and written communication skills for holistic proficiency.

Agenda:

- Effective oral presentation techniques.
- Bridging the gap between spoken and written communication.
- Group activities combining both skills.
- Individual presentations with constructive feedback.

Outcomes:

- Participants demonstrated the integration of verbal and written skills in presentations.
- Enhanced ability to convey ideas cohesively in both formats.
- Constructive feedback provided a platform for continuous improvement.

Conclusion:

The three-day training program successfully equipped professionals with a nuanced understanding of both verbal and written communication. Participants left with enhanced skills and a clear roadmap for continuous improvement. The feedback received will be instrumental in refining future iterations of similar programs to meet the evolving needs of professionals in the communication domain.

DEPARTMENT OF ELECTRONICS COMMUNICATION ENGINEERING

PROGRAM REPORT

Name of the Program: A Two Day Work Shop on "MAT LAB"

Date: 13/03/2019 to 14/03/2019.

Time: 10:00 A.M.

Resource person details:

Name: P.V. SATEESH KUMAR

Designation: Asst.Professor

College: SAI TIRUMULA NVR ENGINEERING COLLEGE

Mobile No: 9515292562.

A Two day work shop conducted on "MAT LAB" From 13/09/2019 to 14/09/2019.the program was initiated by in charge HOD of ECE Dept. P. Michel Chollines, who expressed his gratitude to the speaker, for presenting a program conducted by ECE Dept.

During the workshop, the resource person discussed the fundamentals of MATLAB is a high-performance language for technical computing. It integrates computation, visualization, and programming in an easy-to-use environment where problems and solutions are expressed in familiar mathematical notation. Typical uses include: Math and computation Algorithm development Modeling, simulation, and prototyping Data analysis, exploration, and visualization Scientific and engineering graphics Application development, including Graphical User Interface building MATLAB is an interactive system whose basic data element is an array that does not require dimensioning. This allows you to solve many technical computing problems, especially those with matrix and vector formulations, in a fraction of the time it would take to write a program in a scalar non interactive language such as C or FORTRAN. The name MATLAB stands for matrix laboratory. MATLAB was originally written to provide easy access to matrix software developed by the LINPACK and EISPACK projects, which together represent the state-of-the-art in software for matrix computation.

FEEDBACK FORM FOR AWARENESS OF TRENDS IN TECHNOLOGY PROGRAM

We appreciate your participation in our Awareness of trends in technology program. Your feedback is valuable to us as it helps us improve the quality of our programs. Please share your opinions with us.

Basic Information:

Your Name (Optional) : B. Kalyan
Date of the Program : 14/03/2019
Department : AG

1. How do you rate the content of the Awareness of trends in technology program overall?

- Excellent
- Very Good
- Good
- Fair
- Poor

2. Were the sessions well-planned and organized?

- Yes
- No
- Not Sure

3. How do you rate the performance of the facilitators/instructors?

- Excellent
- Very Good
- Good
- Fair
- Poor

4. Did the facilitators encourage active involvement and interaction?

- Yes
- No
- Not Sure

5. How much do you think the Awareness of trends in technology program will help you in your academic and professional life?

- Extremely Helpful
- Very Helpful
- Somewhat Helpful
- Not Helpful

6. How satisfied are you with the Awareness of trends in technology program overall?

- Very Satisfied
- Satisfied
- Neutral
- Dissatisfied

7. Any other comments or suggestions?

Develop the knowledge

Thank you for completing this feedback form. Your input is important to us in enhancing our future Awareness of trends in technology programs.

PROGRAM REPORT

Name of the programe: A Two Day Work Shop on “INTERNET OF THINGS “

Date: 27/09/2019 to 28/09/2019

Time: 10:00 A.M

Resource person details:

Name: V.V. B CHARI

Designation: Asst.professor

College: In house faculty

Mobile No: 9985994890.

A Two day work shop conducted on “INTERNET OF THINGS “From 18/02/2020 to 19/02/2020.the program was initiated by in charge HOD of ECE Dept. P.Sudheer Kumar, who expressed his gratitude to the speaker, for presenting a program conducted by ECE Dept.

During the workshop, In conclusion, internet of things is the concept in which the virtual world of information technology connected to the real world of things. The Internet of Things is happening now, and there is a need to address its challenges and maximize its benefits while reducing its risks. The Internet Society cares about IOT because it represents a growing aspect of how people and institutions are likely to interact with and incorporate the Internet and network connectivity into their personal, social, and economic lives. Solutions to maximizing the benefits of IOT while minimizing the risks will not be found by engaging in a polarized debate that pits the promises of IOT against its possible perils. Rather, it will take informed engagement, dialogue, and collaboration across a range of stakeholders to plot the most effective ways forward.

PROGRAM REPORT

Name of the program: A Two Day Work Shop on “CYBER SECURITY AND ETHICAL HACKING”

Date: 30/10/2020 to 31/10/2020.

Time: 10:00 A.M.

Resource person details:

Name: M.Rathana kishore

Designation: Asst.professor

College: SAI TIRUMALA NVR ENGINEERING COLLEGE

Mobile No: 8125704735

A Two day work shop conducted on “CYBER SECURITY AND ETHICAL HACKING “From 30/10/2020 to 31/10/2020. The program was initiated by In charge HOD of CSE Dept. N.Anjaneyulu, who expressed his gratitude to the speaker, for presenting a program conducted by CSE Dept.

Objective

This seminar on Cyber security and Ethical Hacking was organized by the college to raise awareness and educate students about the risks associated with cybercrime and the measures that can be taken to prevent such activities. The seminar aims to educate participants about the importance of cyber security and how it can be used to protect sensitive data and information.

Outcome

The outcomes of this seminar on Cyber Security and Ethical Hacking was students were able to learn about types of attacks, attackers and security threats and vulnerabilities present in the computer system as well as tools and techniques to safeguard oneself in cyber space.

Some of the key takeaways form these seminars were:

Principal
A.M REDDY MEMORIAL COLLEGE OF
ENGINEERING & TECHNOLOGY
PETLURIVARI PALEM
Narasaraopet, Dist, Guntur

1. **Increased awareness:** Participants gained a better understanding of the importance of cyber security and ethical hacking, the risks associated with cybercrime. This will help them to be more vigilant and take appropriate measures to protect their personal and professional information.
2. **Improved knowledge:** The seminar equipped participants with the knowledge and skills required to implement effective cyber security measures and defend against cyber threats. They learnt about the latest tools and techniques used by ethical hackers to identify vulnerabilities and mitigate risks.
3. **Enhanced security:** By implementing the strategies and recommendations provided in the seminar, participants will be able to enhance the security of their systems and networks. This will reduce the risk of data breaches, identity theft, and other forms of cybercrime.
4. **Increased collaboration:** The seminars provided a platform for participants to network and collaborate with the professionals in the field. This led to the sharing of ideas and best practices.
5. **Greater confidence:** Armed with the knowledge and skills gained from the seminar, participants gained greater confidence in their ability to protect themselves and their organizations from cyber threats.

PROGRAM REPORT

Name of the Program: A Two Day Work Shop on “ARTIFICIAL INTELLIGENCE AND
MACHINE LEARNING”

Date: 23/02/2022 to 24/02/2022.

Time: 10:00 A.M.

Resource person details:

Name: N. VEERANJINEAYULU

Designation: Asst.professor

College: C R ENGINEERING COLLEGE

Mobile No: 9849366102.

A Two day work shop conducted on ARTIFICIAL INTELLIGENCE AND MACHINE LEARNING From 23/02/2022 to 24/02/2022.the program was initiated by in charge HOD of CSE Dept. Dr. B.CHANDRA SEKHAR, who expressed his gratitude to the speaker, for presenting a program conducted by CSE Dept.

A workshop on artificial intelligence and machine learning (AI/ML) for advanced reactors (AR) was held October 5-6, 2021. The workshop was to be attended in-person at ANL but COVID restrictions forced the workshop to go virtual. The objectives of the workshop were to identify the most promising AI/ML opportunities for improving advanced reactor design, optimizing plant performance, and enhancing economic competitiveness and to develop an understanding of the scientific, engineering and licensing challenges facing their application. The workshop planning committee included GAIN, EPRI and NEI and members of three national laboratories (ANL, INL, and ORNL). The workshop was attended by more than 200 individuals representing academic and scientific institutions and the nuclear power industry. The definition put forth for an AI/ML system was one that perceives its environment and takes actions that maximize its chance of achieving its goals. In this report AI/ML refers to next generation algorithms that include deep learning, statistical analysis and data analytics and associated scientific computing and their potential application to the design, licensing, operation and maintenance of ARs. These methods typically

DEPARTMENT OF ELECTRONICS COMMUNICATION ENGINEERING

PROGRAM REPORT

Name of the Program: A Two Day Work Shop on “FINGER PRINT AUTHENTICATION”

Date: 16/12/2022 to 17/02/2022.

Time: 10:00 A.M.

Resource person details:

Name: P. PARAMESWARA RAO

Designation: Asst.professor

College: SRI MITTAPALLI COLLEGE OF ENGINEERING

Mobile No: 9985255876.

A Two day work shop conducted on FINGER PRINT AUTHENTICATION From 16/12/2022 to 17/12/2022.the program was initiated by in charge HOD of ECE Dept. P SURYA GANESH, who expressed his gratitude to the speaker, for presenting a program conducted by ECE Dept.

A workshop on “FINGER PRINT AUTHENTICATION” was held October 16/12/2022 to 17/12/2022. A biometric factor is something physiologically unique about an individual, such as a fingerprint, facial image, iris, voice pattern, and handwriting. When an individual wants logical or physical access (depending on the implementation), a sample is taken of the authenticities biometric data, for example, a fingerprint. Then, the authenticator, using a previously enrolled version of the same biometric template can match the

sample against the stored template to verify the individual’s identity” “Biometrics are not secret, as everyone leaves fingerprints everywhere they go, faces and eyes can be photographed, voices can be recorded, and handwriting samples can be obtained.

The security of the fingerprint authentication system therefore relies on the integrity and authenticity of the biometric information”1, therefore careful evaluation must be done for the selection of the fingerprint
